

Screening for Bowel Cancer Saves Lives

Are you turning 50, 55 or 65 between 2008 and 2010?

If so, your invitation to participate in the National Bowel Cancer Screening Program will soon be sent to your current Medicare-registered address.

Your invitation kit will include a free **Faecal Occult Blood Test kit** which can be completed in the privacy of your own home.

Please don't ignore it. Bowel cancer is the second highest cause of cancer related death in Australia but can be prevented if detected and treated early.

For more information visit www.health.qld.gov.au/bowelcancer or contact the Queensland Bowel Cancer Screening Program on **1300 766 927** (local call)

For Translating and Interpreting Services, please contact 13 14 50.

'Early Detection is the Best Protection'
