

RESPIRE CARE

Gives carers a break from their caring role. A respite worker looks after the person needing care so the carer can enjoy other activities and interests.

Do you need a
helping hand

HOME & COMMUNITY CARE (HACC) SERVICES

The HACC Program is a key provider of Community Care Services. The overall objective is to enhance independence of people and to avoid or delay premature admission to long term residential care through the provision of basic maintenance and support Services.

Eligibility

You may be eligible for HACC Services if you are a frail older person, a young person with a functional disability or a carer of these people. Some services require a contribution. Services can provide information if costs are involved.

COMMUNITY CARE ACCESS POINT

There are many services available to help you live independently at home and in your community.

One phone call to Community Care Access Point will give you information about services such as help around the home, assistance with showering, support for carers and much more.

Access Point staff will also find out whether you are eligible for services, discuss your needs and put services in contact with you.

Community Care Access Point can make it easier to access care, provide information about services, determine eligibility, undertake need assessments and provide referrals to the most suitable service providers.

If you contact Access Point you still get to choose a provider of your choice to provide your service.

You can also contact your service provider directly.
