Introduction

Purpose and scope

This document is intended for use by Industry Partners and Researchers in the development and negotiation of study budgets for all commercially sponsored clinical trials research to be conducted within Queensland Health Institutions. All budget negotiations are to reflect the requirements outlined in the Queensland Health Research Management Policy and Implementation Standards.
http://www.health.qld.gov.au/ohmr/documents/res_man_pol_fram08.pdf

Section 1 of the document provides information relating to fees and charges for services provided for research projects undertaken within Queensland Health. It also provides guidance on application processes, contract requirements, correct nomenclature and preferred forms. Information in this section applies to all sites within Queensland Health.

Section 2 provides information on individual Health Service Districts, Human Research Ethics Committees, Research Governance Offices and other research related contacts within major hospitals.

All prices quoted are not inclusive of GST (10%). GST may be levied in accordance with the GST Legislation.

W: http://www.health.qld.gov.au/ohmr/html/regu/cen_coord_serv.asp

Feedback: regu@health.qld.gov.au

SECTION 1: Queensland Wide Fees, Charges and Policies

1 Ethics Applications

1.1 Application Format

Research applications undergoing full HREC review must be made on the NEAF. If using the NHMRC version of NEAF (<https://www.neaf.gov.au/>), the application must be converted into the “Infonetica” version of NEAF (<https://ethicsform.org/au/>) to enable uploading into the AuRED database. All supporting study documents must be electronically attached to the application. Instructions for performing these actions may be found in the Queensland Health Researcher User Guide: http://www.health.qld.gov.au/ohmr/documents/researcher_userguide.pdf.

1.2 Ethics Review Fee

HREC Review fee: \$3000 (excluding GST)

For the full range of HREC and Governance fees, please refer to the QH REGU website: http://www.health.qld.gov.au/ohmr/documents/fees_spsnrd_rsrch.pdf.

2 Central Coordinating Service and Multi-Centre Research

Queensland Health has established a Central Coordinating Service (CSS) for all multi-centre research projects.

The Coordinating Principal Investigator must contact the CSS to enable allocation of the study to the appropriate reviewing Human Research Ethics Committee (HREC). The decision regarding which HREC will review the study is made in consultation with the CPI.

This service will also provide advice on supporting documentation requirements and will also assist with nomination of possible sites to participate in multi-centre research projects. For further information, please contact the Central Coordinating Service (CSS) at QH REGU.

Contact details

Ms Heather Hawkins

T: 07 3234 0034

E: QHCCS@health.qld.gov.au

W: http://www.health.qld.gov.au/ohmr/html/regu/cen_coord_serv.asp

3 Governance Applications

3.1 Application Format

Governance applications are made on the SSA (Site Specific Application) Form, generated out of the Infonetica NEAF. Governance authorisation is not issued until after the ethics approval is received. All relevant study documents must be electronically attached to the SSA Form. Site staff will complete this form. For a list of contact details for Governance Officers throughout Queensland Health sites, go to the following URL, select "Step 2" and click on "Where do I submit my SSA Form".

http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp

3.2 Governance Review Fee

Application fee: \$3000 (excluding GST)

For the full range of HREC and Governance fees, please refer to the QH REGU website:

http://www.health.qld.gov.au/ohmr/documents/fees_spsnrd_rsrch.pdf.

3.3 Clinical Trial Agreements

3.3.1 Qld Health requests the use of the approved Clinical Trial Agreements as defined on the QH REGU webpage, "Step 2: Research Governance Processes":

http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp

Where these preferred contracts are *not* used, study approvals will be delayed as legal review will be sought for all non standard contracts. These costs will be borne by the sponsor. Please refer to the Research Management Policy - Implementation Standard 4 for details.

http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp

3.3.2 Schedule 7 clauses must be reviewed and approved prior to their implementation. Non-approved Schedule 7 clauses intended for general use for all research projects should be submitted to Queensland Health Research Ethics and Governance Unit (regu@health.qld.gov.au) to enable legal review and pre-approval. Approved Schedule 7 clauses remain valid for 12 months. If amendments are requested within this time, a fee will be levied for this service according to the complexity of the legal review.

"Project Specific" amendments to approved schedule 7 clauses will be submitted by study sites to the District Solicitor for review. A fee will be charged for this service according to the complexity of the legal review. Project specific amendments to Schedule 7 clauses are approved only for that study and do not affect current approved schedule 7 clauses for that company.

In the case of "one off, study specific" schedules, the lead site in multi-centre research will conduct the legal review for all QH sites.

3.3.3 Study budgets should automatically be adjusted for CPI on the anniversary of the date of the contracts' signing. Sponsors are requested to provide a break down of per patient costs as part of the study budget.

3.4 Legal Name of Institution / Party to be Indemnified

The 'State of Queensland' is the contracting party for all QH agreements. The various state government departments (including QH) are not separate legal entities and cannot enter into contracts. Any wording which follows "The State of Queensland" is descriptive only and intended to assist the parties in identifying the relevant part / area / department within the State involved in the contract.

QH should be described on all research contracts as:

"The State of Queensland acting through Queensland Health (ABN:66329169412), (name of hospital/district) of (Address of Institution)".

3.5 Insurance Certificate Requirements QH

The Insurance Company must have a representative office in Australia to enable rapid review and settling of any claims. For sponsored clinical trials, the sponsor or CRO should indemnify Queensland Health against claims by patients arising from the study in terms consistent with the Medicines Australia Standard Forms of Indemnity:

http://www.medicinesaustralia.com.au/pages/images/Form_of_Indemnity.doc

Please also refer to the Research Management Policy:

http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp

In addition, the Sponsor/Local Sponsor must have and maintain for the term of this Agreement *and for a period of 6 years thereafter the following insurances:*

- (a) Clinical Trial/Product Liability insurance for an amount not less than \$10m AUD per claim;
- (b) Public liability insurance for an amount not less than \$10m AUD per claim;
- (c) Professional indemnity insurance for an amount not less than \$10m AUD per claim;
- (d) Workers compensation insurance in accordance with applicable legislation.

All insurance certificates must be valid at the time of submission for Governance review.

3.6 Overnight Hospital Stay Fee (Commercially Sponsored Clinical Trials)

If the protocol requires an overnight hospital admission - which is not a standard clinical requirement (eg an unregistered anti-arrhythmic drug requiring overnight monitoring after administration of the first dose. etc) - the standard fee for Medicare eligible patients will be charged to the sponsor company.

If an overnight stay is a requirement of standard clinical practice for the disease that is the subject of the trial, overnight accommodation fees may not be charged.

The standard Medicare reimbursement fees for private patients in a **public hospital standard ward bed or other bed stay services** is available from the "Queensland Health Fees and Charges Register" which can be accessed on the Queensland Health intranet by Queensland Health staff. For further information, contact REGU@health.qld.gov.au.

Please note: There is a range of accommodation available. Fees should be negotiated as required. If study participants are ineligible under Medicare benefits, separate fees apply, depending on the level of service and interventions required.

3.7 Archiving and Storage of Study Documents

All study documents and folders are to be archived off site. Sponsor companies are requested to pay for archiving fees. Queensland Government has a "standing offer" arrangement for the provision of records storage, retrieval and destruction services. This information is Commercial in Confidence, and cannot be used for the purposes of obtaining quotes for the storage of research materials from commercially sponsored research.

<http://gcd.govnet.qld.gov.au/Pages/Details.aspx?SOANumber=QGCP0747-08>

3.8 Medical record pulling charge

Qld Health does not have a formal policy for charging for the handling of Medical Records requested for the purposes of Research. However, a fee may be levied by individual sites and this fee should be covered by the Sponsor and noted in the Contract.

3.9 Parking Fees

Where study participants incur parking fees as a result of attendance at a hospital or clinic for the purposes of a clinical trial visit, the sponsor is requested to cover the cost of parking. Parking Fee invoices will be forwarded by study coordinators. Parking fees are considered an additional expense and should be listed separately from the "per patient" fee.

3.10 Travel Expenses for Patients

When travel expenses are incurred for travel specifically related to Clinical Trial participation, reimbursement of these expenses for study participants is requested. This may be in the form of taxi vouchers, public transport ticket reimbursement, or a "per/km" fee if private vehicles are used.

Please see the current Queensland Government approved Directive for Motor Vehicle Allowances. Go to the following URL and search for "Motor Vehicle Allowances".

<http://www.justice.qld.gov.au/fair-and-safe-work/industrial-relations/queensland-government-employees/directives#2010>

Details for participant travel reimbursement should be stated in the Clinical Trial Agreement and listed separately from the "per patient" fees.

4 Cardiology Fees

4.1 Non cardiology Research Projects

For non-cardiology research projects, where cardiology services are required as part of the research procedures, the fee schedule will be based on the MBS Schedule Fee + 20%, with the exception of any bespoke requirements.

4.2 Cardiology Research Projects

For cardiology research projects the fee schedule will be based on the MBS Schedule Fee + 20% with the exception of any bespoke requirements.

Depending on the complexity of the project, an annual administration fee may also be levied.

5 Commercially Sponsored Clinical Trials

5.1 Site Additional Fees and Charges

Item	Fee
Study Set up Fee	\$3000
Full preparation of NEAF by site:	\$2500/study/site
Partial preparation of NEAF by site:	\$500
Monthly computer fee:	\$30/study
Amendment of documents: (consent, protocol, etc):	
Major Amendments*	\$500/occasion of service
Minor Amendments**	\$250/occasion of service
Re-consenting fee/participant:	\$35/participant
Site Specific Application Preparation Fee:	\$500
HoMER Studies: If the site is selected as the lead site under the HoMER /QH SERP process, extra fees may be levied to cover administrative costs.	By negotiation with site.
Study Audits	
Audit preparation (study coordinator time only)	\$400/day
Audit visit (covers time of all site study personnel)	\$1000/day
Annual Administration Fees:	\$1000/study
Study Close-out Fee:	\$500
Archiving Assistance Fee:	\$300/study
Queensland Civil and Administrative Tribunal Application preparation fee:	\$250
PHA Application preparation fee:	\$150
Pathology Administrative Approval (CaSS) application preparation fee:	\$500
Pre screening fees: Chart/patient review prior to signing consent and only on receipt of pre-screening log signed off by P.I. (if applicable): <i>(to be negotiated with site and determined according to type and complexity of study)</i> . To be re-negotiated after 250 pre-screened patients.	\$25 for each pre-screened possible participant recorded on the pre-screening log.

<p>Screening Fee:</p> <p>If a screening visit fee is not included in the study budget, all procedures undertaken for screening for the purpose of potential trial recruitment must be paid (screening visit relates to the signing of the consent form).</p>	<p>Negotiated according to complexity of Screening visit.</p>
<p>If a study is extended for a protracted period of time the study budget may require renegotiation.</p> <p>If the project is terminate early, the sponsor is required to cover full costs associated with the study preparation and conduct including any HREC and RGO fees dues.</p>	

* A *major amendment* is defined as an amendment to the protocol or any other supporting documentation, that is likely to affect to a significant degree:

- the safety or physical or mental integrity of the participants of the trial
- the scientific value of the trial
- the conduct or management of the trial
- the quality or safety of any investigational medicinal product used in the trial.

** A *Minor amendment* is defined as changes to the details of research that have no significant implications for participants or for the conduct, management or scientific value of the study and can be regarded as minor amendments (sometimes referred to as "administrative amendments"). These amendments do not require review by a full HREC and can receive approval outside of scheduled HREC meeting. Examples as follows:

- Correction of typographical errors in the protocol or other study documentation
- Amended contact details for the sponsor or project staff
- Appointment of new support staff

Disclaimer

The Queensland Health schedule of fees presented in this table covers aspects of personnel costs associated with coordination of a clinical trial. This schedule does not represent a complete list of all personnel services. Where these fees are absent, cost must be negotiated and agreed upon with the Queensland Health service provider. Queensland Health maintains the right to withhold services when there is insufficient funding to cover services cost.

6 Clinical and Statewide Services (CaSS)

CaSS is the division in Queensland Health that includes Forensic and Scientific Services, Pathology Queensland and Medication Services Queensland (pharmacy).

Contact CaSS Research:

Internet: <http://www.health.qld.gov.au/qhcss/research/default.asp>

Contact:

E: CaSS_Research@health.qld.gov.au

T: +61 7 3636 9833

F: +61 7 3636 9854

6.1 Forensic and Scientific Services

The Forensic and Scientific Services Human Ethics Committee (FSS-HEC) is constituted and functions in accordance with the NHMRC National Statement on Ethical Conduct in Human Research 2007 (NS). The FSS-HEC is responsible for review of the following:

- use of human samples submitted to FSS for testing
- use of data about human subjects held at FSS
- access to coronial autopsies, including retrieval of tissue, for purposes other than the coronial investigation

Depending on the complexity of the project, fees may be levied for services provided.

For further information on Forensic and Scientific Services, go to:

Internet: <http://www.health.qld.gov.au/qhcss/qhss/default.asp>

Contact:

T: 07 3274 9014

F: 07 3274 9201

E: FSS_HEC@health.qld.gov.au

6.2 Pathology Services

Pathology services in Queensland Health are provided state-wide by Pathology Queensland, a branch of Queensland Health Clinical and Statewide Services (CaSS).

For any research project or clinical trial requiring access to patient information from CaSS (such as data or samples governed by Public Health Act), please contact CaSS Research (see above).

Queries for information on available pathology services and quotes may be made directly to Pathology Queensland at any stage of project. This is recommended due to the complexity of the Medical Benefits Schedule (MBS).

Logistical discussions with local laboratories can begin well before project start.

Internet: <http://www.health.qld.gov.au/qhcss/qhps/default.asp>

Contact:

E: ghps_client_service@health.qld.gov.au

T: +61 7 3636 0040

F: +61 7 3636 6160

Pathology Queensland

Level 14, Block 7,

Royal Brisbane and Women's Hospital, Qld, Australia 4006

For individual laboratory NATA certification information, please go to <http://www.nata.asn.au/index.php/labsearchresults>

Go the "Search" field, insert "Pathology Queensland" in section 1
In section 2, select "Facility name or location"
Click on "search". All Pathology Queensland sites details will appear.

6.2.1 Pathology Fees:

Administration Fee:

Minimum \$200 per clinical trial

Service Fees:

- Charged per test starting at the rate of 140% of Medical Benefits Schedule (MBS).
- Rates for non-MBS services available on request.
- Pathology fees quoted are not inclusive of GST

All pathology fees arising as a result of processing specimens for forwarding to a central laboratory are to be paid by the sponsor. Details for participant pathology reimbursement should be stated in the Clinical Trial Agreement. Pathology fees are considered an additional expense and should be listed separately from the "per patient" fee

Disclaimer:

The Queensland Health schedule of fees presented in this table covers only standard diagnostic/treatment cost. Additional services, bespoke procedures and those not listed on the Medical Benefits Scheme (MBS) will require negotiation with the Queensland Health service provider. Queensland Health maintains the right to withhold services when there is insufficient funding to cover services.

6.3 Pharmacy Fees

Item	Fee
Establishment	\$900-1100
Ongoing Administration	\$500-1100/year
Completion	\$300
Dispensing per patient per visit	
Simple Dispensing	\$40-70
Additional recordable items	+\$15-25
Complex Dispensing:	
Narcotic / recordable	\$50-80
Additional recordable items	+\$25
Aseptic	\$100-200
Additional items	+\$25-60/item
On-call	\$350/week
Call in	\$400
Stock reimbursed under S100	Sponsor to pay co-payment
Commercial stock reimbursed by sponsor	cost + handling fee 20%
Storage	
Room temperature	\$300/year
Fridge/narcotic	\$350-500/year
Archives (on-site)	\$10/trial/year
Archives (off-site)	Commercial rates
Re-labelling Fee	\$100/hour
Drug Transfer:	
To Institution	\$60 + costs
To Participant	\$20 + costs
Drug Destruction	Waived / commercial rates
Miscellaneous eg equipment, consumables	Variable, will include a handling fee

Note: On-call figure based on \$2.70/hr as per current award. Archive storage may be included in completion fee. Temperature monitoring: \$5.77/week

NB: Pharmacy fees quoted are not inclusive of GST

Pharmacy fees are considered an additional expense and should be listed separately from the “per patient” fee.

Disclaimer:

The Queensland Health schedule of fees presented in this table covers only standard pharmacy cost. Additional services, bespoke procedures and those not listed on the Pharmaceutical Benefits Scheme (PBS) will require negotiation with the Queensland Health service provider. Queensland Health maintains the right to withhold services when there is insufficient funding to cover services.

6.4.1 Radiology and Imaging Research Procedures

Item	Fee
Standard study with no additional requirements	MBS Schedule Fee + \$100 administrative fee
Standard acquisition with RECIST reporting	MBS Schedule Fee + \$100 administrative fee + \$300 Specialist Report fee.
Study requiring any other special technique and/or reporting requirements	MBS Schedule Fee + \$100 administrative fee + \$300 Specialist Report fee plus additional fee to be negotiated.

6.4.2 Nuclear Medicine Research Procedures

The fee schedule will be based on the generic Schedule Fee + 20% with the following exceptions:

Item	Fee
Samarium-153 (16018)	MBS Schedule Fee + 30%
Gated Heart Pool Scan (61313)	MBS Schedule Fee + 30%
Octreotide (61369)	MBS Schedule Fee + 50%
CSF Transport Study (61409)	MBS Schedule Fee + 400%
Iodine Whole Body Scan (61426)	MBS Schedule Fee + 100%
MIBG I-123 (61484)	MBS Schedule Fee + 100%
MIBG I-123 + SPECT (61485)	MBS Schedule Fee + 100%

Nuclear Imaging: Other fees and charges may be levied according to the complexity of the protocol.

For all bespoke PET scanning, contact Dr David MacFarlane at Royal Brisbane and Women's Hospital.

T: 07 3636 5442

E: David.Macfarlane@health.qld.gov.au

Disclaimer:

The Queensland Health schedule of fees presented in this table covers only standard diagnostic/treatment cost. Additional services, bespoke procedures and those not listed on the Medical Benefits Scheme (MBS) will require negotiation with the Queensland Health service provider. Queensland Health maintains the right to withhold services when there is insufficient funding to cover services.

SECTION 2: Site Specific Information.

Queensland Health District Maps

For a list of hospitals in each HSD, please go to:

Internet: http://www.health.qld.gov.au/hospital/hospital_sites.asp

DISTRICT PROFILES

Cairns and Hinterland Health Service District

The Cairns and Hinterland Health Service District covers an area from Cardwell in the south, Mossman and Daintree in the north and Croydon in the west, encompassing an area of about 143000 km². The population of this area totals approx. 221,000, but as the referral hospital for the whole of Far North Queensland, Cairns Base Hospital serves a broader population of about 250,000.

There is one HREC in this HSD: Single site research studies should be submitted to Cairns and Hinterland Health Service District Human Research Ethics Committee. Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.

The main hospital in the District is Cairns Base Hospital.

Cairns Base Hospital provides community and specialist hospital services for Cairns and its immediate surroundings and is the major referral centre for Tropical North Queensland. Services include all major health specialties (medicine, surgery, women's health, paediatrics and mental health) and more than 30 sub-specialties. The hospital also is a major provider of outreach specialist services to remote and rural areas, including obstetrics and gynaecology, anaesthetics, orthopaedics, general medicine, renal medicine diabetes and thoracic medicine. The hospital has around 330 overnight beds.

Cairns Base Hospital Services	
Hospital	24 hour Acute Care Services in Medical, Surgical, Peri-operative, Obstetric/Gynaecology, SCBU, Child and Youth Health, Rehabilitation Unit, Integrated Mental Health, Emergency Medicine, Aged Care, Oncology, Integrated Mental Health, & Intensive Care.
Surgical	General surgery, orthopaedics, vascular surgery, ENT, urology (limited), oral surgery, wound management, ophthalmology (limited), plastic corrective surgery & pain service.
Medical	General medicine, cardiology, cardiac rehabilitation, renal services, diabetes, gastroenterology, respiratory, haematology, aged care, neurology, rheumatology, endocrinology, medical oncology, obstetrics, gynaecology, continence advisory, genetic counselling, neonatal, paediatrics, emergency medicine, mental health, sexual health, ATODS, oral health, investigative services include medical imaging, pathology, respiratory studies, neurological studies, cardiac investigations and cardiac angiography.
Specialist Services	Cardiology, emergency medicine, endocrinology, ENT surgery, infectious diseases, Intensive Care, gastroenterology, geriatrics, neurology, obstetrics, gynaecology, oncology, ophthalmology, oral surgery, orthopaedics, paediatrics, pathology, psychiatry, rheumatology, renal medicine, general surgery, thoracic medicine, urology, vascular surgery, radiology.

Cairns Base Hospital Services	
Clinics Available	Reflect above specialities plus paediatric ophthalmology, radiation oncology, neurosurgery, orthopaedic oncology, paediatric cardiology, paediatric dermatology, paediatric surgery, cystic fibrosis, renal transplant, scoliosis, amputee, diabetes, sleep clinic, genetics, haematology, & metabolic clinics.
Allied Health Services	Dietetics, Physiotherapy, Speech Therapy, Occupational Therapy, Social Work, Pharmacy, Psychology, Clinical Measurement Services: neuro scientist, respiratory scientist, cardiac scientist & sleep technician, Child Development Unit: multidisciplinary allied health team comprising occupational therapist, physiotherapist and speech therapist, Radiologists, oral health dental services.
Outreach Services	Obstetric/Gynaecology, Anaesthetics, Orthopaedic, General Surgery, General Medicine, Thoracic Medicine, Paediatrics, Mental Health, Geriatrics, Dental. Provided to Far Northern region.
Other Aged Services	Geriatric Services Unit.
Other Services	Sexual Health, Alcohol & Drug, Dental, Hep C.
Notes	Investigative services include medical imaging, pathology, cardiac investigations and outreach specialist services provided to Far North Region.
Other hospitals in the District	Yarrabah, Gordonvale, Innisfail, Atherton, Mareeba, Herberton, Tully and Babinda. There is a a Multipurpose Health Centre at Mossman.

Cairns and Hinterland Site Contact Details and Submission Information

Other health care facilities within the District	Barcaldine, Alpha Hospital, Aramac Hospital, Blackall Hospital, Boulia Primary Health Care Centre, Isisford Primary Health Care Centre, Jundah Primary Health Care Centre, Muttaborra Primary Health Care Centre, Tambo Primary Health Care Centre, Winton Hospital

Darling Downs and West Moreton Health Service District

The DD-WMHSD covers approximately 95,000km² to the west of Brisbane, extending south from the NSW border to Wondoan in the north and Glenmorgan in the West. The Health Service District services a population of approximately half a million people, and was created 10 2008 from the merging of five health service districts. The two main cities in the district are Toowoomba and Ipswich.

The West Moreton South Burnett Health Service District (WMSBHSD) incorporates Ipswich, Boonah, Cherbourg, Esk, Kingaroy, Laidley, Murgon, Nanango and Wondai hospitals; and a tertiary mental health facility: The Park - Centre for Mental Health.

The main hospitals in the District are Toowoomba Hospital, Ipswich Hospital, and The Park – Centre for Mental Health.

There are two HREC's in this HSD:

- Toowoomba & Darling Downs Health Service District Human Research Ethics Committee (based in Toowoomba)
- West Moreton South Burnett Health Service District Human Research Ethics Committee (based at The Parks – Centre for Mental Health)

Single site research studies should be submitted to one of the above HREC's as per 'Where Do I Submit My Single Site Research Study For Ethical Review' located at:

http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp.

Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.

Toowoomba is located approx. 130km west of Brisbane, on the Darling Downs and is Australia's second largest inland city. The hospital also services a large farming community. Services offered by Darling Downs West Moreton Health Service District are listed below:

Toowoomba Hospital Services	
Hospital	Ambulatory care (including Emergency Department, Specialist Outpatient services, Day Procedures Unit, dialysis and oncology services). Acute Inpatient care including Medical, Mental Health, Surgical, Orthopaedic, Obstetrics and Gynaecology, Paediatrics, Special Care, Intensive and Coronary Care, and Theatre. Mackay Health Service District

The Mackay Health Service District provides a wide range of services aimed at improving the health of the region. There are approximately 160,000 people in a diverse area extending from just north and south of Mackay, the Whitsunday Islands to the east and the mining towns of the west.

There are seven hospitals and eight separate community health services and more than 1200 health professionals are employed to provide an outstanding level of health care to the region's community.

There is no HREC in the District. Single site research studies should be submitted to Townsville Health Service District Human Research Ethics Committee. Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.

The main hospital is Mackay Base Hospital.

Mackay Hospital Services	
Hospital	Medicine, Surgery, Clinical Support
Specialist Services	Obstetrics & Gynaecology; Paediatrics; Emergency Medicine; Orthopaedic Surgery; Anaesthetics; Intensive Care; Coronary care; Psychiatry; Aged Care; Renal Medicine; ENT; Ophthalmology; Palliative Care; Day Surgery
Clinics	Dermatology; Oncology; Orthopaedic; Neurosurgical; Neurology; Liver; Diabetic; Urology; Surgical; Medical; Renal; Pacemaker; Cardiac; haematology; Ophthalmology; Wound Management;
Allied Health	Physiotherapist; Dietician; Speech Pathology; Social Worker; Occupational Therapist; Psychologist;
Outreach	Palliative Care; Cardiac Rehabilitation; Pain Management; Generalist Nurses; Asthma Care; Team Midwifery
Support	Diagnostic X-Ray; Pathology; Clinical Measurements; Information Services; Staff Development; Human Resources; library; finance; Operational Services
Other health care facilities within the District	Clermont Multi-Purpose Health Service, Dysart Hospital, Glenden Community Health Centre, Moranbah Hospital, Middlemount Community Health Centre, Sarina Hospital and Primary Health Care Centre, Whitsunday Health Service, Proserpine Hospital Campus.

Metro North Health Service District

The Metro North Health Service District provides the full range of health services including rural, regional and tertiary teaching hospitals. The District covers an area of 4157 square kilometres and extends from the Brisbane River to north of Kilcoy. Hospitals within the Metro North Health Service District include Caboolture Hospital, Kilcoy Hospital, The Prince Charles Hospital, Redcliffe Hospital, Royal Brisbane & Women's Hospital. Services within Metro North Health Service District include Aged Care / Residential / Acquired Brain Injury Services, Primary and Community Health Service, Mental Health Services and Oral Health Services..

The main hospitals within the District are: The Royal Brisbane and Women's Hospital, The Prince Charles Hospital, Redcliffe Hospital.

There are three HREC's within the District:

- Northside Health Service District - Redcliffe Ethics Committee – based at Redcliffe Hospital
- The Prince Charles HREC – based at The Prince Charles Hospital.
- The Royal Brisbane and Women's HREC – based at the Royal Brisbane and Women's Hospital

Single site research studies should be submitted to one of the above HREC as per 'Where Do I Submit My Single Site Research Study For Ethical Review' located at:
http://www.health.qld.gov.au/ohmr/html/regu/for_researcher.asp.

Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.

Redcliffe Hospital Services

Hospital	Redcliffe Hospital provides a wide range of medical, surgical, oncology, orthopaedics, emergency, obstetrics, paediatrics, specialist outpatient clinics and clinical support services. Other Services include: Home Ward, Community Hospital Interface Program and diabetes care.
-----------------	--

Caboolture Hospital Services

Hospital	The Caboolture hospital is a 194 bed hospital, with hospital services including Obstetrics/Gynaecology, general surgery, general medicine, day surgery, pathology, emergency medicine, gastroenterology, paediatrics, medical imaging pharmacy and mental health. The Prince Charles Hospital (TPCH)

With a workforce of approximately 3500 staff, The Prince Charles Hospital provides health services to residents living in the northern suburbs of Brisbane and specialist services to the broader Queensland and northern New South Wales population.

As the major tertiary level cardiothoracic referral hospital for Queensland, the largest such unit in Australia and one of the largest services of its type in the world, The Prince Charles Hospital provides cardiac and pulmonary transplantation services for Queensland. Other specialised state-wide services include an adult cystic fibrosis unit; adult congenital heart disease and heart failure units; and complex cardiac care.

Specialist services in the areas of Psychiatry and Mental Health, Geriatric Medicine and Aged Care, Rehabilitation, Palliative Care, Orthopaedics, Internal Medicine and General Surgery, as well as outreach specialist services throughout Queensland are also provided.

The Prince Charles Hospital Services	
Hospital	Inpatient and outpatient services. Accident & Emergency Medicine, Intensive Care, Medical Imaging and Nuclear Medicine.
Surgery	General Surgery, Specialist Cardio-Thoracic Surgery, Heart and Lung Transplantation for adults, Elective Orthopaedic Surgery
Internal Medicine	General Medicine, Rehabilitation Medicine, Aged and Extended Care, Palliative Care, Specialist Cardiology, Thoracic Medicine, Thoracic Oncology, Sleep and Respiratory Failure Investigations
Mental Health	Five general Community Mental Health Teams for adults are located at Chermside, Pine Rivers, Nundah, Caboolture and Redcliffe. In patient and out patient services include Acute Care Teams (ACT), Consultation / Liaison Team (CL), Perinatal Mental Health Team, Mobile Intensive Support Team (MIST), Early Psychosis Team (EP), Older Persons Mental Health. There are 60 beds in 2 wards at TPCH, and the Medium Secure Unit provides treatments for up to 20 patients.
Aged Care, Residential and Acquired Brain Injury	The Prince Charles Hospital has the largest Geriatric outpatient service in Queensland. There are aged care facilities at Eventide, Ashworth House and Cooina which provide accommodation for the frail aged, dementia secure, dementia non secure and psychogeriatric care. Jacana is for people with acquired brain injury and provides Dual Diagnosis residential service for clients with Acquired Brain Injury and mental health diagnosis.
Allied Health	Services include Dietetics and Nutrition; Occupational Therapy; Physiotherapy; Podiatry; Speech Pathology; Psychology and Neuropsychology; and Social Work

The Royal Brisbane and Women's Hospital (RBWH)

The Royal Brisbane and Women's Hospital is a 1047 bed general, tertiary referral teaching hospital with a number of specialities including medicine, surgery, orthopaedics, psychiatry, oncology and trauma services. Women's and Newborn Services provide comprehensive care of obstetric, gynaecological and neonatal intensive care on an inpatient and outpatient basis.

It is the largest tertiary referral hospital in Queensland and provides services to patients throughout the State, Northern New South Wales, the Northern Territory and from neighbouring countries in the South West Pacific. The hospital fulfils a significant teaching and research role with links to Queensland's major tertiary institutions.

Located at Herston and close to the central business district of Brisbane, the Royal Brisbane and Women's Hospital shares the Herston Campus with the [Royal Children's Hospital](#) and the [Queensland Institute of Medical Research](#). It has recently undergone a major redevelopment program where the majority of the two hospitals clinical services have been rebuilt making it the largest hospital redevelopment in Australia's history.

Royal Brisbane and Women's Hospital Services

Metro South Health Service District

The Metro South Health Service District is situated within the southern suburbs of Brisbane and extends from Brisbane River in the north, to the coast line and Bay islands in the east and to the border of New South Wales in the south west. It encompasses the following major health services: Princess Alexandra Hospital, Queen Elizabeth II Jubilee Hospital, Logan Hospital, Beaudesert Hospital, Redland Hospital, Wynnum Hospital and Dunwich Health Service Centre.

The main hospital in the District is the Princess Alexandra Hospital.

There is one HREC in the District – Metro South Health Service District HREC, based at Princess Alexandra Hospital. Single site research studies should be submitted to Metro South Health Service District HREC. Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.

Princess Alexandra Hospital

(PAH) is one of three tertiary level facilities in Queensland, providing care in all major adult specialties, with the exception of obstetrics. It is one of Australia's leading teaching and research hospitals.

The PAH provides acute medical, surgical, mental health, cancer, rehabilitation and allied health services as well as statewide services - including the Acquired Brain Injury Outreach Service, Queensland Amputee Limb Service, Spinal Outreach Team and the Transitional Rehabilitation Program.

It is nationally recognised for its expertise in spinal injury management and is a major transplantation centre for livers, kidneys, bone, cartilage, and corneas. The hospital has responsibility for the management of the Queensland Liver Transplant Service, Queensland Eye Bank and the Queensland Bone Bank. It also houses one of the major Pathology Queensland services.

The PAH has an aeromedical retrieval service transporting patients to hospital via helicopter or fixed wing aircraft, a road accident response service and a major trauma retrieval service managed by the Emergency Department and Intensive Care Unit.

Princess Alexandra Hospital Services

Hospital	Acute Medical, Surgical and Mental Health Services including Cardiac Surgery, Emergency Medicine, Cancer Services, Intensive Care, Transplantation, Geriatrics and Rehabilitation including Spinal Injuries and Brain Injuries Rehabilitation Unit.
PAH Specialist Services - Surgical and Medical	Endocrine, Thoracic, Colorectal, ENT, Hepatobiliary, Intensive Care Unit, Transplant (Liver/Renal), Neurosurgery, Post Anaesthetic Care, Day Surgery, Ophthalmology, Orthopaedics, Plastics and Facio Maxillary, Stomal Therapy, Upper GI, Urology, Vascular, Alcohol and Drug, Clinical Pharmacology, Cardiology, Dermatology, Endocrine and Diabetes, Gastroenterology, General Medicine, Geriatrics, Hypertension, Haematology, Radiation Oncology (PAH and Mater Campus), Medical Oncology, Palliative Care, Immunology, Rheumatology, Vascular, Infectious Disease, Neurology, Nephrology, Respiratory, Sexual Health and Medical Imaging.

Princess Alexandra Hospital Services	
PAH Allied Health Services	Physiotherapy, Occupational Therapy, Speech Pathology, Audiology, Social Work, Dietetics, Psychology, Podiatry, Prosthetics and Orthotics, Pharmacy, Medical Illustrations, Statewide Queensland Amputee Limb Service.

Children's Health Services District

The Royal Children's Hospital (CHSD) is a 168 bed, tertiary referral paediatric teaching hospital with a number of specialties including burns, liver transplant, oncology, paediatric surgery, rehabilitation, respiratory medicine, and trauma services.

It is the largest paediatric tertiary referral hospital in Queensland and provides services to patients throughout the State, Northern New South Wales, Northern Territory, Japan, and from neighbouring countries in the South West Pacific. Located at Herston and close to the central business district of Brisbane, the Royal Children's Hospital shares the campus with the Royal Brisbane and Women's Hospital.

The Children's Health Services District is structured into the following Divisions: Division of Allied Health, Division of Corporate Services (District-wide service), Division of Medical Services, Division of Surgical Services.

Features of the CHSD include: Computerised Medical Imaging Department, Department of Emergency Medicine, Hydrotherapy Pool, Paediatric Intensive Care Unit, Liver Transplant Service, Oncology Department, Paediatric Surgery, Poisons Information Centre, Queensland Children's Gait Laboratory, Respiratory Medicine Department/Queensland Children's Asthma Centre, State wide Paediatric Rehabilitation Service, Stuart Pegg Burns Centre.

There is one HREC in this District. Single site research studies should be submitted to Children's Health Services District Ethics Committee. Multi-centre research studies must be submitted through the QH Central Coordinating Service for allocation to a reviewing HREC.
