1.0 Introduction 1

1.1	Abbreviations	2
1.2	Symbols	2
1.3	Communicating with clients	3
1.4	Key documents	4
	<i>The Dietary Guidelines for Children and Adolescents in Australia</i>	5
	<i>The Australian Guide to Healthy Eating</i>	8
	The Aboriginal and Torres Strait Islander Guide to Healthy Eating	9
1.5	Food groups	10
	Bread, cereal, rice, pasta, noodles	11
	Vegetables, legumes	11
	Fruit	11
	Milk, yoghurt, cheese	12
	Meat, fish, poultry, eggs, nuts, legumes	12
	Extra foods	13
	Putting it all together	13
1.6	Nutrient reference values	14
	For infants and children	14
	Energy	14
	Protein	14
	Fat	15
	Carbohydrate	15
	Iron	15
	Zinc	16
	Calcium	17
	Folate/folic acid	18
	Vitamin B12	19
	Vitamin B6	19
	Vitamin C	20
1.7	Physical activity	21
	Benefits	21
	Barriers	21
	Physical activity recommendations	21
	Strategies to promote physical activity	22
	Family activities	22
	Sport and recreation resources	22
	Useful websites and resources	23
1.8	Culturally and Linguistically Diverse (CALD) Communities	24
	Cultural competence in early life	24
	How culturally competent is your health service?	24
	How to go about cultural competence	24
	Multicultural profile of Queensland	25
	Vulnerable migrants: refugee and asylum seeker	25
	Females: special considerations	25
	Working with interpreters	26
	Communication style	26
	Religion	27
	Case studies: an African woman new to Australia	28
	Nutritional risks identified	28
	Useful websites and resources	29
	References	30
1.9	Aboriginal and Torres Strait Islander nutrition	31
	Current health and nutritional status	31
	Recommendations from the Dietary Guidelines for Australians	32
	Protocols for engaging with	
	Aboriginal and Torres Strait Islander communities	32
	Antenatal nutrition	33
	Breastfeeding	34
	Useful websites and resources	37

2.0 Antenatal nutrition 1

2.1	Nutrition during pregnancy	1
2.2	Sample meal plan	2
	Folate during pregnancy	3
	Iron during pregnancy	4
	Iodine	5
	Multivitamin supplements	5
	Alternative and herbal remedies	5
2.3	Special considerations during pregnancy	6
	Listeria	6
	Mercury	7
	Caffeine	7
	Artificial sweeteners	7
	Alcohol	8
	Morning sickness	8
	Constipation	10
	Heartburn	10
2.4	Weight gain during pregnancy	11
	Healthy eating to increase weight gain	12
	Healthy eating to control weight gain	13
	Returning to pre-pregnant weight	13
	Healthy eating tips for those trying to lose weight	14
	Healthy eating tips for those trying to gain weight	14
2.5	Groups requiring special attention during pregnancy	15
	Vegetarian and vegans	15
	Teenagers	17
	Aboriginal and Torres Strait Islander women	17
	Obese pregnant women	17
	Women with diabetes in pregnancy	18
	Pre-existing Type 1 and Type 2 diabetes	18
	Gestational diabetes	18
2.6	Exercise during pregnancy	19
2.7	Antenatal breastfeeding education	22
	Guide to education	23

3.0 Feeding for the first 6 months 1

3.1	Breastfeeding: best for baby, best for mum	1
3.2	The benefits of breastfeeding	3
3.3	Natural patterns of breastfeeding	4
	The first breastfeed	4
	One or both breasts at each feed?	5
	Breastmilk	5
	The sleepy infant	6
	The unsettled infant	7
	How often should I breastfeed my baby?	8
	Identification of correct attachment	9
	Sore and cracked nipples	10
	Is baby getting enough milk?	11
	Guidelines for practitioners:	16
	Monitoring progress: in the first month of life	16
	Monitoring progress: from 1 to 6 months	17
3.4	Why not to introduce cow's milk before 12 months	18
3.5	Nutrition and breastfeeding	19
	Energy requirements	20
	Physical activity	20
	Dieting during breastfeeding	23
	Alcohol	24
	Caffeine	24
	Food sensitivities	25
3.6	Breastfeeding and non nutritive substances	27
	Nicotine	27
	Prescription and/or over the counter medications	28
	Drugs to relieve headache, aches, pain or fever	28
	Cold, flu and asthma drugs	29
	Hayfever and allergies	29
	Contraception	29

	Constipation	29
	Vitamins, minerals and herbal preparations	30
	Antidepressants	30
	Smoking	30
	Illicit drugs	30
3.7	Breastfeeding in specific situations	32
	Absolute contraindications for breastfeeding	32
	Relative contraindications to breastfeeding	33
3.8	Expressing and storing breastmilk	34
3.9	Points to consider when discussing breastfeeding cessation	36
	Breast care options during weaning	37
	Women and paid work	38
3.10	When an infant is not receiving breastmilk - infant formula	39
3.11	Useful websites and resources	42

4.0 Introduction to solids 1

4.1	When should solids start?	2
4.2	How should solids be started?	4
4.3	What solids should be started and when?	5
	From 6 months	5
	From 8 months	6
	From 9 months	8
	From 12 months	9
4.4	Drinks	11
4.5	Salt in food	12
4.6	Sugar in food	12
4.7	Useful websites and resources	13

5.0 Toddler nutrition 1

5.1	Why is nutrition important in toddlers?	1
	Understanding how children approach eating	2
5.2	What should toddlers eat?	3
	What affects toddler's daily intakes?	4
	Suggested meal plan for a toddler	5
5.3	What should toddlers be offered to drink?	6
5.4	Assessing whether their children are meeting their dietary needs	7
	Food diary	7
	Growth monitoring	7
	When to refer	7
5.5	Tips for toddler eating	9
5.6	Safety tips	10
5.7	Milk matters	11
	How much milk?	11
	How much fat?	11
5.8	Fussy eating	14
5.9	Useful websites and resources	19

6.0 Preschool nutrition 1

6.1	Eating patterns	2
6.2	Nutrition during preschool years	3
	Suggested sample servings for children aged 4–7 years	4
6.3	Suggested meal plan for a 4–7 year old	5
6.4	Eating habits	5
6.5	Growth	6
6.6	Appetite	6
6.7	Physical activity	6
	Treats	7
	Healthy snacks	7
	Healthy drinks	7
6.9	Food preferences	8
6.10	Useful websites and resources	9

7.0 Clinical nutrition 1

7.1	Adverse food reactions	1
	Understanding food allergies and intolerances	1
	Understanding food allergies	1
	Management	4
	Dietary intervention	4
	Chemical threshold	5
	Food intolerance reactions	5
	Management of food intolerances	5
	Elimination diets	5
	Coeliac disease	6
7.2	Colic	9
	Resources	10
7.3	Constipation – keeping things moving!	13
	Definition	13
	Normal bowel function	14
	Aetiology of constipation	15
	Fibre, fluid and exercise	16
	Fibre content of foods	16
	Cow's milk protein allergy	17
	Clinical presentation of constipation	17
	Management of children with constipation	17
	Education	17
	Maintenance therapy	18
	Relapse	18
7.4	Failure to Thrive (Slow weight gain and undernutrition)	20
	Definition	20
	Growth	21
	Causes of failure to thrive	22
	Consequences	23
	Primary care management	23
	Weighing	23
	Dietary assessment	23
	The role of the general practitioner / paediatrician	23
	Checklist for failure to thrive (adapted from 6)	24
7.5	Fluoride	27
	Fluoride and breastfeeding	27
	Fluoride and formula feeding	27
	Fluoride guidelines	27
	Useful websites and resources	28
7.6	Gastroenteritis	29
	Management	29
	Signs of dehydration	30
	Recommended hydration strategies for the dehydrated child	30
	Recommended hydration strategies for the non-dehydrated child	31
	Sample meal plan	31
	Useful websites and resources	32
7.7	Growth charts	33
	Types of charts	33
	Using growth charts	34
	Weight and length/height	34
	Poor growth	34
	Overweight and obesity	35
	Head circumference	35
7.8	Healthy weight	37
	Keeping Kids on Track	37
	Defining overweight and obesity in children	38
	Nutrition strategies	39
	Energy in	40
	Food labels	40
	High fat	41
	High sugar	42
	Snack food dilemmas	43
	Energy out	45
	Useful websites and resources	48

7.9	Iron deficiency	50
	What is iron deficiency?	51
	Symptoms of iron deficiency and iron deficiency anaemia (1)	52
	Treatment	54
	Bioavailability of iron	55
	What are the best sources of iron?	55
	Assessing the diet	
	– asking about iron consumption for infants and toddlers	56
	Useful websites and resources	59
7.10	Lactose intolerance	60
	Causes of lactose intolerance	60
	Management	61
	Useful websites	62
7.11	Regurgitation and gastro-oesophageal reflux	63
	Diagnosis	63
	Reflux and poor weight gain	64
	Management	64

Resource list 1

Tables

Table 1	Food group recommendations
Table 2	Open questions for use in CALD communities
Table 3	Factors influencing the rates of breastfeeding (in a Melbourne Aboriginal community)
Table 4	Age of introduction to solids (in a Melbourne Aboriginal community)
Table 5	Food recommendations during pregnancy
Table 7	Recommended total weight gain during pregnancy, proportional to weight for height
Table 8	The general guide to the pattern of weight gain during pregnancy
Table 9	Types of vegetarians and major food sources
Table 10	<i>The Australian Guide to Healthy Eating</i> recommendations for breastfeeding women
Table 11	Energy expenditure variations during breastfeeding
Table 12	Storage of expressed breastmilk for infant use
Table 13	Typical physical and social/ personal characteristics related to eating during the preschool years
Table 14	Recommended fat content of milk for 1 to 5 year olds
Table 15	Typical physical and social/personal characteristics related to eating during the preschool years
Table 16	Clinical presentation of constipation
Table 17	Not included
Table 18	Possible strategies for increasing energy intake
Table 19	Fluoride is important to healthy teeth
Table 20	Comparison of CDC2000 and WHO growth charts
Table 21	NHMRC current classifications for BMI percentile ranges
Table 22	Comparison of fat content of various foods
Table 23	Comparison of sugar content of various foods and drinks
Table 24	Possible causes of a child being above their natural body weight
Table 25	Definitions of impaired iron status
Table 26	Lactose content of common foods

Figures
