Annual Report

2005-06

Queensland the Smart State

**This report**

- Fulfils government reporting requirements.
- Provides a strategic overview of the department's activities and achievements during the 2005-06 financial year.
- Provides performance, financial and statistical data.

**Key achievements** are described in terms of the Queensland Health Strategic Plan 2005-2011, with each relating to the five organisational outputs consistent with the Managing for Outcomes Framework and the 2005-06 Queensland Health State Budget. Financial reporting is also aligned to the outputs.

**Hospital activity data** included in this report cover the activities of 37 health service districts and the Mater public hospitals.

**Letter of transmittal**

The Honourable Stephen Robertson MP  
Minister for Health  
Member for Stretton  
GPO Box 48  
Brisbane Q 4001

Dear Minister

I am pleased to present you with the Queensland Health Annual Report for 2005-06. The report is our key accountability tool to Parliament and the people of Queensland.

The report highlights our performance against the five objectives set out in Queensland Health's Strategic Intents.

The report incorporates the outcomes to date of the \$6.4 billion Health Action Plan, which is designed to build better health services for Queensland.

During the financial year the department has been successful in delivering a significant range of projects and initiatives which demonstrate Queensland Health's commitment to achieving better health for all Queenslanders.

Queensland Health has delivered a number of integrated services including hospital inpatient, outpatient and emergency services, community and mental health services, aged care services and, public health and health promotion programs.

The department's activities also work strongly towards achieving the outcomes that the government is seeking from its five priorities.

Yours sincerely

**Uschi Schreiber**  
**Director-General**  
**Queensland Health**
