*Hey you women,
did you know?*

You know
about this 1800
Helpline ?

Yeah we
had to ring up for
that young girl, she
needed help...

YOUR BODY BELONGS TO YOU WOMEN.

It's assault when

- a man tries to make you go with him when you don't want to
- a man tries to make you go with him even if you tell him 'no'
- Someone talks dirty to you
- Touches you when you don't like it
- Someone forces you to have sex, or won't leave you alone, even when they know you don't like it.

Don't be shame, no blame, you can talk to people here.

If you have been sexually assaulted at any time in your life, you can call the Helpline on 1800 010 120 (from 9 in the morning till 1 at night)

They can help with

- someone to talk to
- how to get help near you
- information

Your body belongs to you. The Helpline is a free service. You don't even have to tell them your name. Your right to privacy is always respected. They won't tell other people the things you've said.
