

Ophthalmology training preference guide

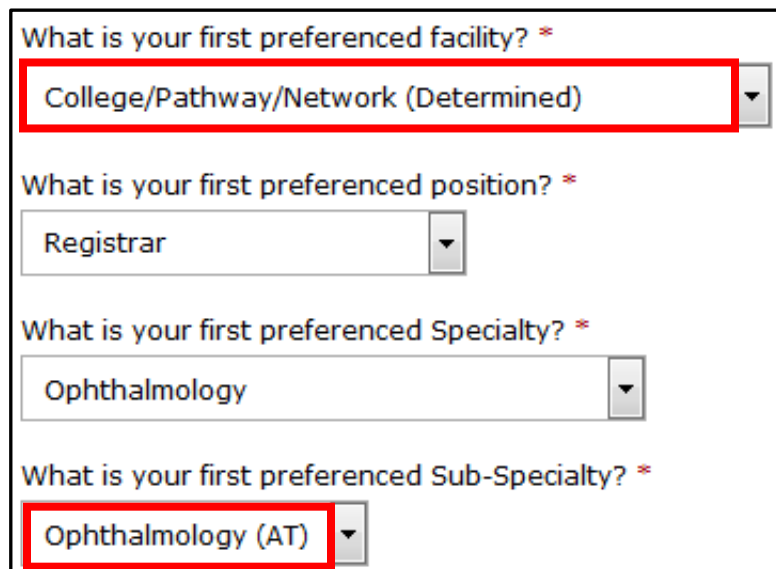

RMO Campaign 2023

The [Royal Australian and New Zealand College of Ophthalmologists](#) (RANZCO) is the medical college responsible for the recruitment, training and professional development of ophthalmologists in Australia and New Zealand. RANZCO offers a [Vocational Training Program](#) (VTP) for new and continuing trainees in which trainees are selected and appointed, and then undergo high quality training experiences. To be selected onto VTP with RANZCO, applicants must apply directly to the college for an allocation to a Queensland facility.

In Queensland, for an employment contract to be issued by your allocated training facility, applicants **MUST ALSO** submit an application via the RMO Campaign portal.

RMO Application: Step 10 Preferences

At **Step 10: Preferences** of the online RMO application, applicants who are on or have applied to be selected onto the training program **MUST** complete their 1st preference as follows:

The screenshot shows a form with four dropdown menus. The first dropdown, 'What is your first preferred facility? *', has 'College/Pathway/Network (Determined)' selected and is highlighted with a red box. The second dropdown, 'What is your first preferred position? *', has 'Registrar' selected. The third dropdown, 'What is your first preferred Specialty? *', has 'Ophthalmology' selected. The fourth dropdown, 'What is your first preferred Sub-Specialty? *', has 'Ophthalmology (AT)' selected and is also highlighted with a red box.

As up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their preferred positions. You can search for alternative vacancies by using the [Position search tool](#) on the RMO website.

For further information on the individual facilities including contact details, please refer the [Participating hospital contacts and facility profiles](#) page on the RMO Campaign website.
