

# QALS Component List

## Component Supplier Information Sheet

### Consumables and Components Updates

The Queensland Artificial Limb Service (QALS) maintains a list of consumable and prosthetic items, which provides an adequate range of components to cover all levels of amputation, mobility grading and component weight limitations. MASS Component Updates occur four (4) times a year for January, April, July and October.

All components and prosthetic accessories used in a prosthesis funded through QALS must comply with the Therapeutic Goods Administration (TGA) legislation regarding standards for medical devices.

1. Updates are to be submitted to [MASS-Procurement@health.qld.gov.au](mailto:MASS-Procurement@health.qld.gov.au) using the [Component List Template](#). For a current list of your items on the QALS Component list please email [MASS-Procurement@health.qld.gov.au](mailto:MASS-Procurement@health.qld.gov.au)
2. MASS Procurement and the Queensland Artificial Limb Service Manager will review items and a QCMS number will be assigned.
3. MASS Procurement will send the component supplier an updated list of items with their standard/non-standard status and if the item was approved or rejected. Items above QALS funding levels/quantities will be marked inactive.
4. Prosthetic Service Providers (PSPs) will be notified of updates and MASS-eApply (online applications) will be updated by MASS.
