

# Haematology (Clinical & Lab) training preference guide

## RMO Campaign 2023

Queensland Health in conjunction with private facilities offer advanced training in Clinical Haematology, Laboratory Haematology and combined Clinical and Laboratory Haematology. Applicants must be familiar with the requirements outlined on the [Queensland Haematology Advanced Training Network](#) webpage.

**New and current trainee** interested in applying for a training position, should complete the Queensland Haematology AT Network section within the online RMO application.

### Queensland Haematology Advanced Training Network

Are you applying for an **Advanced Training position in Clinical and/or Laboratory Haematology** in Queensland next year?

Please visit the [Queensland Haematology Advanced Training Network](#)  website for eligibility, accredited training sites, preference information etc. \*

Yes

No

Once you have nominated **YES** and complete the subsequent questions, you will be asked to preference both clinical and laboratory facilities in your order of preference.

**(Note:** As appointments are competitive, you are encouraged to preference any position you would be willing to accept, both clinical and laboratory. If you do not preference a position, you will not be considered for that position.)

Please indicate your first preference facility: \*

Please indicate your sixth preference facility:

## Accredited training facility in Queensland:

Clinical Haematology	Laboratory Haematology
Cairns Hospital	Gold Coast University Hospital (Lab)
Greenslopes Private Hospital	Mater Pathology
Gold Coast University Hospital	Pathology Queensland (PAH)
Mater Hospital Brisbane	Pathology Queensland Central Lab (RBWH)
Princess Alexandra Hospital	QML Pathology
Royal Brisbane and Women's Hospital	Sullivan Nicolaides Pathology (SNP)
Sunshine Coast University Hospital	Townsville University Hospital
Toowoomba Hospital	
Townsville University Hospital	
Pathology QLD/Aust Red Cross Lifeblood (Hematology Molecular Fellow)	

Trainees must be willing to rotate across campuses as well as to the ARCBS, Mater laboratory and to private laboratories of SNP and QML, to ensure maximum exposure to training opportunities and to access all relevant sections within their discipline. Individual placements will be discussed as part of the offer if successful.

## RMO application: Step 10 Preferences

At **Step 10: Preferences** of the online RMO application, to be considered by the **Training Pathway**, you **MUST** complete your first preference as follows:

What is your first preferred facility? \*

College/Pathway/Network (Determined)

What is your first preferred position? \*

Registrar

What is your first preferred Specialty? \*

Medicine

What is your first preferred Sub-Specialty? \*

Clinical Haematology/LAB

Up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their 1st preference. You can search for alternative vacancies by using the [Position search tool](#) on the RMO website.
