

An Introduction to Clinical Supervision

Assess Potential Supervisor Checklist

~ Adapted from Carroll and Gilbert (2011)

- What are their qualifications and experience in supervision?
- Do they belong to professional bodies?
- What is the principal focus of their current work?
- What are their current interests in the field?
- What is their clinical supervision philosophy?
- What will they expect me to do in preparation for the supervision session?
- What type of clinical supervision contract/agreement do they use?
- How do they go about giving feedback in supervision?
- Will there be regular reviews of the supervision relationship?
