

GOLD COAST UNIVERSITY HOSPITAL

First Core Year of Advanced Training for Gastroenterology

Gold Coast University Hospital is a 930 bed tertiary hospital with four endoscopy rooms and two related hospitals. We have all services expected of a tertiary center including cardiothoracic and neurosurgery. We currently have in the digestive health department 22 consultants with separate IBD, hepatology, interventional endoscopy and nutrition teams. The middle grades comprise of 1st year AT, 2nd year AT, Liver fellow, IBD fellow, Interventional fellow and our Endo PHO supported by 2 RMOs and 2 BPT. 2 dedicated in room supervision training lists per week per AT with “train the trainers” supervisors. One of the largest and friendliest units in Australia with active MDT, research and teaching programs.
