Here are four characters your facility will get to know quite well through the Happy Teeth program. These characters have been designed by children, for children. Encourage your children to create their own germ characters!

First of all, let’s meet the bad guys!

**Bazza the Bad Bacteria**

These guys are the baddies because they are the ones who attack our teeth and make us sick.

**Georgie Germ**

(A filthy fly)

Wottapong!

Now, let’s meet the good guys!

**Betty Brushwell**

We all love Betty Brushwell because she helps to clean Bazza and Georgie off Stevie Strongtooth and helps to keep our teeth happy.

**Stevie Strongtooth**
