Hospital facilities

Logan Hospital is the major health centre for one of the fastest growing regions in the state. We have grown from a 48-bed community hospital in 1990 to a 436-bed hospital today, mirroring the rapid growth in population in the Logan region.

We provide acute medical, surgical, rehabilitation, maternity, cardiology, orthopaedics, renal and other specialty services for children and adults.

Logan Hospital is a 'digital hospital' with a fully integrated electronic medical record, supporting improvements to the quality and efficiency of healthcare services for patients and the community. We also operate the second busiest emergency department in the state.

A major expansion of Logan Hospital is underway to provide new beds and treatment spaces to meet the demand for clinical services into the future. The work includes:

- construction of new floors for clinical services
- a new general medical ward with 28 beds – opened 05/02/2020
- a major refurbishment of the hospital's maternity and neonatal services
- a multi-storey car park for staff, patients and visitors.

In the 2018-2019 financial year, there were:

- 91,233 patients admitted to the hospital
- 93,508 patients admitted to the emergency department
- 220,478 outpatient clinic appointments
- 3,619 babies born

Logan Hospital

We care about you

Queensland
Government

Assessment and Appointment

Once the RMO Campaign has closed, applications from the are forwarded to the relevant Clinical Directors for review in line with the RMO Campaign timelines. The following steps will then be completed:

- Complete applications will be assessed in accordance with policy and procedure requirements, scored and placed in an order of merit.
- Interviews may be required for applicants*
- Appointments will be made to positions from the established order of merit until the nominated target is reached.
- Candidates will be advised by email of the outcome of their application.
- Preferred candidates will be requested to provide pre-appointment documentation.
- Upon receipt of compliant documentation, a letter of offer for appointment will be forwarded to the successful candidate.
- Candidates who do not receive a first round offer may be placed on an eligibility list. Those candidates on the eligibility list may be offered a position in the second round.

Visa's

HR Policy B46 Citizenship, residency, visa and immigration, 'Queensland Health must ensure that the recruitment of overseas professionals into clinical roles strengthens the regional economies through the engagement of skills that complement but do not replace the skills of the available local labour market. Only in the circumstance that an Australian applicant pool is insufficient to fill a skilled clinical vacancy may Queensland Health sponsor applicants from the overseas market'.

AHPRA

Current AHPRA Registration is preferred. Unfortunately, Logan Hospital cannot offer positions to candidates who are on or only eligible for Level 1 Supervision with AHPRA. Preference is General Registration or Provisional Registration with at least a minimum Level 2 Supervision.

Offering of positions to successful candidates is as follows:

1st Round Offers - *This group of applicants must be offered positions first.*

- Australian or New Zealand citizens or Australian permanent residents.

2nd Round Offers - *This group of applicants will be offered positions after 1st round offers have been completed.*

- Temporary residents of Australia (not Australian/New Zealand citizens or Australian permanent residents) who hold a current visa with valid work rights and do not require Queensland Health sponsorship (includes dependents of existing Queensland Health sponsored visa holders). For example, 485 post graduate work visas.

3rd Round Offers - *This group of applicants will be offered positions after 2nd round offers have been completed.*

- Temporary residents of Australia (not Australian/New Zealand citizens or Australian permanent residents) who are currently sponsored by Queensland Health. For example, 482 temporary skills shortage visas.

4th Round Offers - *This group of applicants will be offered positions after 3rd round offers have been completed.*

- Temporary residents of Australia (not Australian/New Zealand citizens or Australian permanent residents) who require sponsorship by Queensland Health.

Clinical Rotations Preferences

Successful candidates appointed into a Clinical Rotations JHO/SHO position will be sent a Preference Survey via Survey Monkey for term preferences and leave to be requested for the 2021 RMO year.

Community and lifestyle

Logan Hospital is easily accessible via the Logan Motorway and Pacific Motorway and is situated just 25 minutes from Brisbane City and 35 minutes from the Gold Coast.

Logan Hospital in South East Queensland is currently experiencing unprecedented growth. South East Queensland is an ideal place to live and work. Our sub-tropical climate means the region can be enjoyed year-round and there's something to suit all tastes from dining, arts and culture to bushwalking, camping and horseback riding.

Logan Hospital offers limited free offsite staff car parking near to the hospital, and for those wishing to use public transport there is Loganlea Railway Station just across the road.
