Hospital facilities

Logan Hospital is the major health centre for one of the fastest growing regions in the state. We have grown from a 48-bed community hospital in 1990 to a 454-bed hospital today, mirroring the rapid growth in population in the Logan region. In late 2014, Logan Hospital opened our doors to a brand new multi-storey building as part of our multi-million-dollar expansion project. The first stages of this project included a new co-located adult’s and children’s emergency department, an expanded children’s inpatient ward and a new 24-bed rehabilitation unit.

Metro South Hospital and Health Service is striving to be a leader in excellence in health care. In 2018, Metro South Health became Australia’s first digital health service, with all hospitals now digitalised.

Clinical service profile

We provide acute medical, surgical, rehabilitation, maternity, cardiology, orthopedics, renal and other specialty services for children and adults including:

- Addiction and Mental Health Service (including Child & Youth)

**Community and lifestyle**

Logan Hospital is in a handy location just off the M1 (Pacific Highway) 25 minutes from Brisbane City and 35 minutes from Gold Coast.

Logan Hospital in South East Queensland which is currently experiencing unprecedented growth. South East Queensland is an ideal place to live and work. Our sub-tropical climate means the region can be enjoyed year round and there’s something to suit all tastes from dining, arts and culture to bushwalking, camping and horseback riding.

Logan Hospital offers limited free offsite staff car parking near to the hospital, and for those wishing to use public transport there is Loganlea Railway Station just across the road.

*(Doctors’ Common Room)*
