Acknowledgments

We wish to acknowledge the valuable support of the Reference Group members, the hospitals and staff who so cooperatively participated in the study, and community groups who have provided essential advice and support on a continuing basis, the Performance Management Branch, Queensland Health for funding the project, and ACITHN for its administrative and technical support. We also wish to extend our gratitude to Daniel Reidpath for his participation in parts of this work and his support and practical assistance, Joseph Bayer for his contributions to the sections on Admission and Discharge, Wendy Gardiner for her contribution to the production of the final documents, and Pat O'Brien from Queensland Health for his determination in seeing the project off the ground and through to completion.
