

# Radiology training preference guide

## RMO Campaign 2022

In Queensland, Radiology training positions are managed centrally through the **Queensland Radiology Training Network**. The network manages the recruitment, selection and allocation of new and continuing trainees to accredited training sites. Applicants interested in radiology need to meet set prerequisites to join the network, refer to <https://www.ranzcr.com/join-our-professions/clinical-radiology/training-programs>.

## New trainees

**New applicants** who are interested in applying for a training position in an accredited training site need to contact the Radiology allocation coordinators at the following facilities. Please note that **applications for new trainees is advertised outside of the RMO campaign**.
