

Infectious Diseases training preference guide

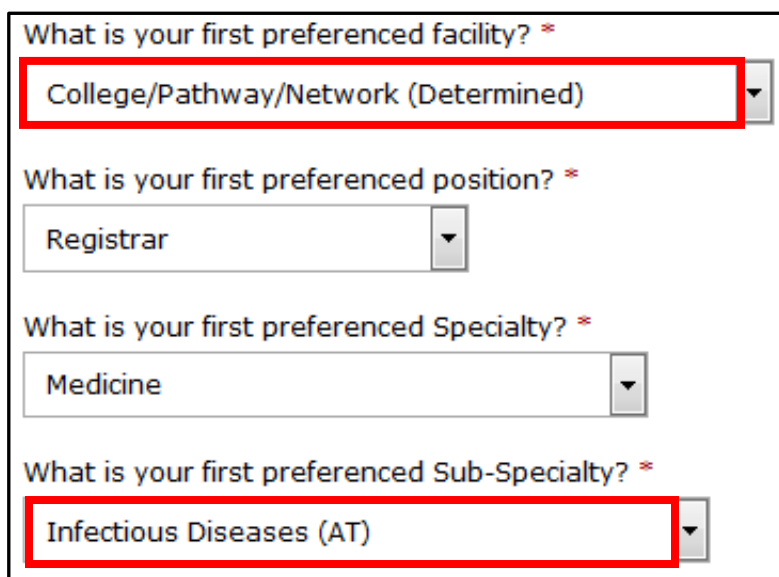

RMO Campaign 2023

In Queensland, selection to advanced training positions in Infectious Diseases are managed centrally by the **Queensland Infectious Diseases Advanced Training Network**. The network manages the recruitment, selection and allocation of new and continuing trainees to accredited training facilities.

For information on eligibility, facility information and contact details, please refer to the [Queensland Infectious Diseases Advanced Training Program](#) webpage. All interested applicants must apply for a training position via the [RMO Campaign portal](#).

RMO application: Step 10 Preferences

At **Step 10: Preferences** of the online RMO application, to be considered by the Training Program, you **MUST** complete your first preference as follows:

The screenshot shows a form with four dropdown menus. The first and last dropdowns are highlighted with a red border. The first dropdown is labeled 'What is your first preferred facility? *' and has 'College/Pathway/Network (Determined)' selected. The second dropdown is labeled 'What is your first preferred position? *' and has 'Registrar' selected. The third dropdown is labeled 'What is your first preferred Specialty? *' and has 'Medicine' selected. The fourth dropdown is labeled 'What is your first preferred Sub-Specialty? *' and has 'Infectious Diseases (AT)' selected.

As up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their preferred position. You can search for alternative vacancies by using the [Position search tool](#) on the RMO website.

For further information on the individual facilities including contact details, please refer the [Participating hospital contacts and facility profiles](#) page on the RMO Campaign website.
