

Queensland Community Pharmacy Pilots – Newsletter # 3

Dear colleagues,

Welcome to your regular update on the Queensland Community Pharmacy Pilots. This edition includes a celebration of pilot milestones and an opportunity to give us feedback about providing the full range of Scope of Practice Pilot services.

500th consultation and 100th pharmacist

Congratulations to all of you who are delivering pilot services as we mark two significant milestones: the 500th pilot service delivered and welcoming our 100th authorised pharmacist!

Your efforts and commitment are driving real change, expanding access to essential healthcare services and helping to ensure that more Queenslanders can receive timely, high-quality care close to home.

Scope of Practice Pilot services - pulse check

Now that we are several months into the Scope of Practice Pilot, we're keen to understand the contributing factors around why some services are not widely accessed.

The image below gives a breakdown of the services provided to date as a percentage of the total volume of pilot consultations, showing that a range of services have seen limited uptake.

To help us identify potential barriers and explore opportunities for improving access to the full range of pilot services, **please take two minutes to fill out this short pulse check.**
