

Queensland Health Non-admitted Patient Data Collection - business rules and derivations 2016-17

Business Rule No	Business Process	Rule Name	Business Rule	File Format Item		Relevant Values in Data Domain	Agreed Process Between Statistical Services Branch (SSB) and Purchasing and Funding
				Item #	Data Item		
1a	IHPA Reporting	IHPA Service Event Bundling - same Principal Funding Source	Only one non-admitted patient service event can be reported to the IHPA, for the same patient for the same Tier 2 Code per day with the same principal source of patient funding.	30	<a href="#">Funding Source</a>	01 Health service budget (not covered elsewhere) 11 Health service budget (due to eligibility for Reciprocal Health Care Agreement) 13 Health service budget (no charge raised due to hospital decision) 14 Medicare Benefits Scheme	QHNAPDC service event records are identified where there are more than one for the same patient on the same date with the same Tier 2 clinic code with the same principal source of patient funding to apply the IHPA Service Event Bundling business rule. Where more than one record exists at the same facility (facility identifier), same patient identifier and same Tier 2 code with the same funding source: 1) the first record will have the 'IHPA Reportable Flag' set to 'Y'; and 2) any subsequent records will have the 'IHPA Reportable Flag' set to 'N'. If the Funding Source is all Public ie: IN ('01', '11', '13') only OR If the Funding Source is all MBS ie = '14'. Refer to 'Rule 1' Worksheet for specific details for IHPA Reportable Flag if Funding Sources are NOT all Public or not all Private. In these scenarios multiple distinct funding sources are required to be reported.
1b	IHPA Reporting	IHPA Service Event Bundling - Medicare Benefits Schedule Principal Funding Source	If multiple service events for the same patient for the same Tier 2 Code on the same day with multiple Funding Sources and one of them is MBS (private) - Send a record to IHPA for each distinct Funding Source.	30	<a href="#">Funding Source</a>	14 Medicare Benefits Scheme	All NAP records will be checked to apply the IHPA Service Event Bundling rule. Refer to 'Rule 1' Worksheet for specific details for IHPA Reportable Flag if Funding Sources are NOT all Public or not all Private. In these scenarios multiple distinct funding sources are required to be reported.
2	Extract from SATr to QHNAPDC	Single Health Care Provider Code	A single 'principal' health care provider code needs to be reported for the service event.	17	<a href="#">Service Provider</a>	Any value in data domain	SATr provides a single 'principal' Health Care Provider code. Business rule that has been agreed is if multiple service provider codes are supplied to SATr, then the code at sequence 1 is used as the principal service provider code.
3	Flag patients who are admitted at the time of the reported service event	Admitted Patient Flag	Any non admitted service event provided to a patient while they are an admitted patient cannot be reported as part of the Non-admitted Patient NBEDS.				All NAP records are checked against QHAPDC records and flagged where a patient's service event occurred during their admitted patient episode.  If the data/ time of a service event is between the start and end date/ time (inclusive) for the same patient's episode of care, the Admitted Patient Flag is populated as to 'Y'. If the Admitted Patient Flag is set to 'Y', then the IHPA Reportable Flag is set to 'N'.
4	Flag patients who are attending Emergency Department/ Service at the time of the reported service event	Emergency Department Flag	Any non admitted service event provided to a patient while they are a non-admitted ED attendance cannot be reported as part of the NAP (ABF) NBEDS.				If a Service Event date/time is between the start and end date time (inclusive) for the same patient's emergency department attendance, then the Emergency Department Flag would be populated as to 'Y'. If a Admitted Patient Flag is set to 'Y', then the IHPA reportable flag should be set to 'N'. All NAP records would be checked against a snapshot of the EDIS Repository data set provided by CARU to HSB.
5	Flag records reportable to IHPA	IHPA Reportable Flag	If the Admitted Patient Flag or Emergency Department Flag the is set to Y, then the IHPA Reportable Flag must be set to 'N' - ie not reportable to the IHPA.				The processing for business rules 3 and 4 are completed by the QHNAPDC system prior to the execution of this rule (5).
6	Derive Tier 2 Code from CCC	Derived Tier 2 Code - (QH Tier 2)	Establishments reporting to the QHNAPDC will continue to report the mandatory data items of 'CCC code' and 'Provider Type' code as per the QHNAPDC file format. A Tier 2 code can be reported however it is an optional requirement in the QHNAPDC file format.				SSB will derive the QH Tier 2 code for Funding Model purposes based on the CCC and Provider Type code reported by the hospital.
7	Derive Tier 2 Code from 'QH Tier 2' - Telehealth activity	Derived Tier 2 Code - (IHPA Tier 2)	An IHPA Tier 2 code will be derived using the same Qld Health Tier 2 code, except where the Service Delivery Mode is code 7 'Telehealth - recipient'.	20	<a href="#">Service Delivery Mode</a>	Code 7 - Telehealth recipient	SSB will derive the IHPA Tier 2 codes for reporting telehealth recipient service events when reporting activity to IHPA.
8	Reporting Home Delivered Procedures	Home Delivered Procedures	One single service event is to be provided to the QHNAPDC for each patient that receives a 'home delivered procedure' for each reference month. Refer to the IHPA Compendium 2016-17 for further details.				IHPA requires a single record for each reference month for any records with a 'home delivered procedure' Tier 2 code.  10.15, 10.16,10.17,10.18, 10.19  No multiplier is required to be applied.

## Business Rule No 2: IHPA Service Event Bundling - same Principal Funding Source

Table A

Funded in the IHPA NWAU calculator	IHPA Funding source	QH funding source	Bundling Rule
y	1 - Health service budget (not covered elsewhere)	01 - Health service budget (not covered elsewhere)	If All Public - send one record - first
y	2 - Health service budget (due to eligibility for Reciprocal Health Care Agreement)	11 - Health service budget (due to eligibility for Reciprocal Health Care Agreement)	Inc's '01', '11' & '13'.
n	3 - Health service budget (no charge raised due to hospital decision)	13 - Health service budget (no charge raised due to hospital decision)	If only one public and others with different funding sources send distinct
n	4 - Department of Veterans' Affairs	07 - Department of Veterans' Affairs	send distinct
n	5 - Department of Defence	08 - Department of Defence	send distinct
n	6 - Correctional facility	09 - Correctional facility	send distinct
n	7 - Medicare Benefits Scheme	14 - Medicare benefits Scheme	If All Private - send one record – first. If only one private and others with different funding sources send distinct.
y	8 - Other hospital or public authority (contracted care)	10 - Other hospital or public authority (contracted care)	send distinct
n	9 - Private health insurance	02 - Private health insurance	send distinct
n	10 - Worker's compensation	04 - Worker's compensation	send distinct
n	11 - Motor vehicle third party personal claim	05 - Motor vehicle third party personal claim	send distinct
n	12 - Other compensation (e.g. public liability, common law, medical negligence)	06 - Other compensation (e.g. public liability, common law, medical negligence)	send distinct
n	13 - Self-funded	03 - Self-funded	send distinct
n	88 - Other funding source	12 - Other funding source	send distinct
n	98 - Not known	99 - Not stated/Unknown	send distinct

Table B

**Notes:**

- Only records with the IHPA Reported Flag set to Yes will be part of the IHPA bundling rule calculations.

ie: Any NAP matched records through the QHAPDC and ED matching process with respective flags set to Yes will be excluded from the bundling rule (as the IHPA Reportable Flag would be set to No).

QH funding source	Bundling Rule
01 - Health service budget (not covered elsewhere)	If All Public Funding Sources- send one record - first
11 - Health service budget (due to eligibility for Reciprocal Health Care Agreement)	Funding Source codes '01', '11' & '13' are all considered "public".
13 - Health service budget (no charge raised due to hospital decision)	If only one public and others with different funding sources send distinct.
07 - Department of Veterans' Affairs	send distinct
08 - Department of Defence	send distinct
09 - Correctional facility	send distinct
14 - Medicare benefits Scheme	If All Private - send one record – first. If only one private and others with different funding sources send distinct.
10 - Other hospital or public authority (contracted care)	send distinct
02 - Private health insurance	send distinct
04 - Worker's compensation	send distinct
05 - Motor vehicle third party personal claim	send distinct
06 - Other compensation (e.g. public liability, common law, medical negligence)	send distinct
03 - Self-funded	send distinct
12 - Other funding source	send distinct
99 - Not stated/Unknown	send distinct

**Business Rule No 7: Derived Tier2 Code - (QH Tier#2)**

**Notes:**

- The Qld Health Funding Model requires hospitals to report a CCC code and a Provider Type code.
- The HSB will derive a Departmental Qld Health Tier#2 code (QH-Tier#2 code) for Funding Model purposes based on the **CCC code** and **Provider Type code** reported by the hospital.
- The derivation of the QH Tier2 code uses the 'provider type' codes grouped into ranges at the 'Medical Officer' and 'Other Health Professional' level.

CCC Code	CCC Description	Provider Type Description	Provider Type Code's	QH Derived TIER2 Code	TIER2 Code Name
130	Aboriginal Health Clinic	Medical Officer	20008186 - 20008308 + 21000225 + 20008547 + 21000250	20.06	General practice and primary care
130	Aboriginal Health Clinic	Other Health Professional	NOT IN 20008186 - 20008308 + 21000225 + 20008547 + 21000250	40.08	General Medicine
135	Aged Care Assessment	Medical Officer	20008186 - 20008308 + 21000225 + 20008547 + 21000250	20.49	Geriatric evaluation and management (GEM)

**Business Rule No 8: Derived Tier2 Code - (IHPA Tier#2)**

Notes:

- An IHPA Tier#2 code will be derived using the same Qld Health Tier#2 code, except where the Service Delivery Mode is 'Telehealth - recipient'.
- For reporting of the service event data to IHPA (for the NAPBEDS) the corporately derived 'IHPA Tier 2' code is to be used.
