

Child, Youth and Family Health Program

Early intervention and parenting clinician

Counselling and parent support

We are a team of therapists specialising in work with parents and caregivers, of children under eight years of age.

Our vision is to support parents and strengthen families.

Sunshine Coast
Hospital and Health Service

Exceptional people. Exceptional healthcare.

What we offer:

Individual and group programs for parents of children under eight years of age who wish to improve:

- parent-child relationship
- ability to understand and respond to challenging child behaviour
- adjustment to parenthood and post natal depression
- coping with anxiety and stress
- parenting confidence.

For more information please contact us at:

**Child Health Access phone number:
(07) 5319 4824**

You can contact your Child Health Service on the above phone number Monday to Friday 8.30am to 4.00pm (except public holidays) for appointments, advice and support.

Partnering with Consumers - Standard 2

Consumers and/or carers provided feedback on this patient information.

Service Delivery - Standard 11

Patients and the community have access to safe, high quality healthcare services that are appropriate, effective and meet their needs.

Provision of Care - Standard 12

The intention of this standard is to ensure high quality care is delivered to consumers/patients throughout the care continuum.
