Clinical Genetics

Facility recruited - preference guide

RMO Campaign 2020

To be selected for Advanced Training in Clinical Genetics with the Royal Australasian College of Physicians (RACP), applicants must first secure a position within an accredited training facility.

In Queensland, to be selected by an accredited training facility, applicants MUST apply via RMO Campaign portal and preference individual facilities. For further information on the individual facilities including contact details, please refer the Participating hospital contacts and profiles page on the RMO Campaign website.

RMO application: Step 10 Preferences

In Step 10: Preferences section of the online RMO application, to be considered you MUST complete your preference by selecting:

```
What is your first preferred facility? *
Royal Brisbane and Women's Hospital

What is your first preferred position? *
Registrar

What is your first preferred Specialty? *
Medicine

What is your first preferred Sub-Specialty? *
Clinical Genetics
```

The above is illustrative only and is not suggestive as to the exact order in which facilities should be preferred.

<table>
<thead>
<tr>
<th>Facility</th>
<th>Level</th>
<th>Speciality</th>
<th>Sub-Speciality</th>
</tr>
</thead>
<tbody>
<tr>
<td>Royal Brisbane and Women's Hospital</td>
<td>Registrar</td>
<td>Medicine</td>
<td>Clinical Genetics</td>
</tr>
</tbody>
</table>

As up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their preferred position. You can search for alternative vacancies by using the Position search tool on the RMO website.
