

Immunisation eLearning

Queensland Health Immunisation Program

Course 4 | Vaccine management

This online course provides a comprehensive overview of the complex and ever-changing topic of immunisation for those who receipt, administer, or manage vaccines in Queensland.

In this course you will learn about the principles of cold chain management and the best practice standards for storage and monitoring equipment to maintain the cold chain and protect vaccines.

This course will also equip you with the knowledge about vaccine stock management and outline the risk management strategies to protect vaccines from a cold chain breach and the immediate actions required by immunisation service providers in the event of a cold chain breach.

Certificate and CPD hours

This course is for general education purposes only and does not lead to authorisation as an Immunisation Provider under the Extended Practice Authorities.

Upon completion of each module, a Certificate of Completion and CPD hours are awarded.

Who can benefit?

The courses are designed to benefit all immunisation service providers in Queensland, regardless of their levels of skills and knowledge. This includes, for example:

- ✓ Registered Nurses, Registered Midwives, Enrolled Nurses, Nurse Practitioners and Endorsed Midwives
- ✓ General Practitioners, General Practice managers and administration staff
- ✓ Pharmacists and pharmacy staff
- ✓ Aboriginal and Torres Strait Islander Health Practitioners, Health Workers and Indigenous Health Workers
- ✓ Primary Health Network support staff
- ✓ Allied Health professionals
- ✓ Anyone involved in immunisation management including storage and service delivery.

Self-paced • Easy access • Free

Prerequisites	Nil
Cost	Free
Delivery	Online and self-paced
Time	3 hours to complete
Certificate/CPD	On completion of each module
