

Queensland Community Pharmacy Pilots – Newsletter # 4

Dear colleagues,

Welcome to your regular update on the Queensland Community Pharmacy Pilots. This edition includes information about new resources and pilot insights, along with a reminder about the current pulse check.

New pilot resource - Prescribing factsheet

During Check-in conversations we have heard from you about the need for additional resources to support pharmacists delivering pilot services.

A new Scope of Practice Pilot Prescribing Factsheet has been developed as a quick reference resource containing guidance and examples about prescribing as part of the Scope of Practice Pilot. The factsheet is available on the website and can be accessed using [this link](#).

Scope of Practice Pilot services - pulse check

Thank you to everyone who has provided feedback on delivering the full range of Scope of Practice Pilot services, through the **pulse check**. This survey will remain open until 1 November 2024, and if you haven't already, we would encourage you to share your feedback on potential barriers and opportunities for improving access to the full range of pilot services.

Pilot insights

As at 1 October 2024, over 500 pilot services have been delivered through participating pharmacies. Feedback from consumers has highlighted the benefits of accessing essential healthcare services outside of normal hours and at a location convenient for them. The graphs shown below give a snapshot of the current distribution of pilot service delivery days and times.
