**General Physicians:** Kathryn Colebourne, Alaa ALGHAMRY, Kristy Rogan

### PROGRAM

Internal Medicine Services at TPCH comprises geriatric services, general medicine rehabilitation and acute stroke:

Geriatric services are provided across the continuum of care and include: Community geriatrics, RADAR (RACF Outreach Assessment Service), Acute care of elderly, Geriatric Evaluation and Management (GEM), Cognitive Assessment and Management (CAM) unit, Hip Fracture Unit (provides orthogeriatric services in a unique shared-care model and provides a peri-operative medicine service to other surgical units). The Geriatric and Rehabilitation Liaison Service provides geriatric consult liaison service and assesses all referrals for subacute care.

General Medicine, (based on EMU and 1F) provides care for adult medical patients utilising an older person-friendly multi-disciplinary approach, with the support of a broad range of subspecialties, providing trainees with Acute Care of the Elderly exposure.

Rehabilitation service led by rehabilitation physicians provides acute inpatient rehabilitation services and ambulatory rehabilitation (Rehabilitation Day Therapy Unit).

Acute stroke unit (co-managed by stroke physicians and rehabilitation physicians).

Rotation to Wesley Private Hospital provides exposure to broad range of geriatric medicine – acute geriatrics, peri-operative consult liaison and ambulatory care.
