

2023 Paediatric Clinical Examination Preparation Program

Supported by the Queensland Basic Paediatric Training Network and the Queensland Children's Hospital

The Paediatric Clinical Examination Preparation Program (PCEPP) is a preparation course for Paediatrics and Child Health clinical exam candidates. Attendance is in person and recorded course content is available after the course.

Course aims

Designed as an adjunct to hospital-based clinical exam preparation, this course aims to provide participants with:

- a broad overview of major issues and recommended learning for the paediatric clinical exam
- practical advice from topic experts for long and short case preparation and management
- helpful tips and tricks to improve skills and performance for the exam.

Learning outcomes

At the end of the program, it is anticipated that participants will be able to:

- develop an organised, strategic approach to preparation for the RACP paediatric clinical examination
- identify the standard expected for the RACP clinical exam
- refine their approach to the long case and the short case
- identify unique aspects of the approach to both the long and short case for key subspecialties.

Saturday 25 – Sunday 26 March 2023

Queensland Children's Hospital
South Brisbane, Queensland

Draft course program overleaf
