

SMOKE-FREE ORGANISED CHILDREN'S ACTIVITIES AND UNDER-18 SPORTING EVENTS

FACT SHEET FOR ASSOCIATIONS AND CLUBS

Q SMOKE FREE ZONES

From 1 September 2023, smoking is banned within 10 metres of organised children's activities. This complements the existing smoking ban at under 18 sporting events in Queensland.

The law applies to all smoking products including electronic cigarettes.

Where does the ban apply?

Smoking is prohibited on land within 10 metres of activity, viewing and playing areas.

- at organised children's activities including any time the activity is being provided to children.
- at organised under-18 sporting events including training or practice sessions, and any breaks or intervals during the event.

What is an organised children's activity or under 18 sporting event?

An organised children's activity is:

- conducted by an association or club,
- organised for the participation of children,
- organised in advance.

For example - supervised outdoor activity or instruction from Scout or Girl Guide clubs, dance or exercise clubs, adventure or nature play associations.

Note: the meaning of organised children's activity in the law does not include excursions or attendance at general public events or street parades.

An organised under-18 sporting event is:

- organised in advance,

- organised or intended for, or predominately participated in by, persons under 18,
- conducted by a professional or amateur sporting body or educational institution.

What is an activity, viewing or playing area?

- **Activity areas** for children's activities include the part of a park or similar area of land being used being used for an organised children's activity.

Viewing and playing areas for under-18 sport include:

- a court, field or oval marked for use to play 1 or more sports (e.g. a soccer field, a cricket oval, a tennis or basketball court),
- a running track,
- a racing track for bicycles,
- a textured surface used for athletics,
- any area, seating or other structure, provided for persons to observe players and competitors at the playing area,
- any area reserved for players, competitors, umpires or other officials for a game being played at the playing area,
- any waiting or warm-up area for players or competitors waiting to enter the playing area.

How will I know when the ban applies?

To help you determine whether an organised children's activity or under-18 sporting event is taking place, consider whether:

- an area for activity has been marked out in a park or similar area and children are participating in an activity,
- children under 18 years old are playing in a match, game, tournament, or other event conducted by an amateur or professional sporting body or educational institution,
- participants are wearing sporting or club uniforms,
- there is supervision that may consist of club representatives, instructors, coaches, officials, or umpires for children's activity or sport events,
- a whistle, siren or other instruction is used to indicate the activity, match, game or event has started or finished.

Organised children's activities or under-18 sporting events are likely to be described as age-limited, for example 'under-18s' or 'junior'.

There may also be 'No smoking' signage displayed at or near the activity or event to inform you of the smoke-free requirements.

Why does the ban exist?

The law protects children and young people from the dangers of second-hand smoke and vapour.

Organised children's activities and under-18 sporting events attract families with children and young people. The ban offers further protection to the Queensland public—and in particular, children and young adults—from exposure to harmful second-hand smoke. Children's health is particularly affected by smoke, with exposure increasing the risk of ear infections, respiratory illness and asthma.

The law also reduces adult role modelling of smoking and vaping around children and young people.

Children and young people are more likely to view the use of smoking products as socially acceptable when they regularly see people using them. Banning smoking and vaping in areas used by children and young people helps make the habit less visible and discourages young people from starting to smoke or vape.

How will the ban be enforced?

There is strong community support for banning smoking at public places regularly attended by children. This means most people will comply with smoke-free requirements and typically encourage others to do so.

The laws are enforced by Queensland Health Environmental Health Officers, who can provide advice about the tobacco laws, respond to possible breaches and issue individuals with warnings and on-the-spot fines.

An on-the-spot fine of two penalty units¹ may apply to someone who smokes at a smoke-free place. The maximum court penalty is twenty penalty units.

Are associations and clubs expected to enforce the ban?

Management, staff and volunteers of children's activity or sporting associations and clubs are not expected to enforce the ban and do not have authority to issue warnings or penalties.

Associations and clubs can support and encourage compliance by raising awareness of the ban. This can be achieved by displaying no-smoking signage, providing promotional resources to staff, volunteers, parents, and visitors and including information regarding the ban in communication materials such as association or club newsletters.

Where there is concern about non-compliance with the smoking ban, clubs and associations can call 13 QGOV (13 74 68) and report concerns for investigation by authorised officers. Concerns can also be reported by completing an online form at: <https://www.health.qld.gov.au/public-health/topics/atod/tobacco-laws/penalties/reporting-a-possible-breach-of-smoking-laws>

What resources are available to promote the ban?

Sporting clubs can access no smoking signage free-of-charge by calling 13 QGOV (13 74 68).

Electronic versions of the signs, factsheets and resources about the changes to the tobacco law can be downloaded and printed from: <https://assetlibrary.health.qld.gov.au/web/64bad97bc5ede464/tobacco-signage>

How can I find out more?

For more information about smoke-free laws in Queensland you can call 13 QGOV (13 74 68) or visit: www.health.qld.gov.au/public-health/topics/atod/tobacco-laws/default.asp

¹ As of 1 July 2023, the penalty unit amount is \$154.80. This amount increases annually. For more information on current penalty amounts call 13 QGOV (13 74 68).
