

Documentation of date and time entry in the paper-based clinical record

Department of Health Standard

QH-IMP-279-2:2013

Statement

This standard describes the steps for documentation of date and time entry in the clinical record.

1. Scope

This standard applies to all employees, contractors and consultants within the Department of Health divisions and business units.

It applies to clinical records managed by the Hospital and Health Services (HHSs) and/or individual health facilities.

This standard does not include corporate records (administrative and non-clinical functions).

The standard may be adopted by HHSs and re-branded as an HHS specific standard or used as a basis for a local HHS specific standard.

2. Requirements

2.1. Process of documentation of date and time entry in the health record¹

- 2.1.1. Documentation of date and time entry in the clinical record in a timely manner shall provide an accurate indication of when care has been delivered and the sequence of events in which it occurred.
- 2.1.2. The value of a clinical record is that it is made contemporaneously with the events it documents.
- 2.1.3. The date and time of the entry shall be recorded in the format of:
 - Date of entry – using DDMmmYYYY (e.g. 15/Apr/2021)²
 - Time of entry – using a 24-hour clock hhmm (e.g. 1645)³

¹ Each registered health practitioner is required to comply with the health records section of the code of conduct/guidelines/competency standards under their relevant National Board

³ Australian Government, Australian Institute of Health and Welfare, METEOR, National Health Data Dictionary,
<https://meteor.aihw.gov.au/content/746063>

- 2.1.4. Dates shall be displayed using alphabetic representations of the month, i.e. January = 'Jan', February = 'Feb' to avoid ambiguity.
- 2.1.5. A valid time shall be recorded as hours and minutes using a 24 hour clock.
- 2.1.6. Entries shall be signed by the author and include their printed name (given name and family name) and designation.
- 2.1.7. Entries shall be made at the time of an event or as soon as possible afterwards to maintain a sequential order of events.

2.2. Retrospective documentation of date and time entry shall be distinguished from the actual time of an event⁴

- 2.2.1. The date and time of entry shall be distinguished from the actual date and time of an event, incident or observation being reported.
- 2.2.2. A retrospective entry of an event, incident or observation being reported is to be written in the body of the entry with the actual date and time of the event, incident or observation being reported.
- 2.2.3. The retrospective entry is to be followed by the author's printed name (given name and family name), signature, designation and date and time of entry.
