

Medical Aids Subsidy Scheme (MASS)

Equipment Services - Stock Reallocation Flowchart

Medical Aids Subsidy Scheme (MASS)

Equipment Services - Stock Reallocation Flowchart

- Access to MASS stock equipment is to assist with allocation of stock to those applicants who meet administrative and clinical eligibility through MASS.
- MASS Stock equipment is not to be used as a trialling service by prescribers, but to be used with the intent of prescribing the aid for that client.

Condition of Trial

MASS stock equipment is for DRY TRIAL only unless negotiated otherwise; the exception being pressure redistribution mattresses where it is necessary to be used during a trial period. Trial period for all stock equipment is to be completed within 2 weeks.

Part E - Request for Allocation from MASS Stock

Prescribers can forward Part E of the *MASS 26* (in lieu of the *MASS 26* Part D), for items that have already been successfully trialled and can be immediately allocated to client.
