

Queensland Commonwealth Partnership - Joint Statement

Our shared commitment to Queensland's health system

Our common vision

Together, we will:

- ▶ Lead a dynamic and responsive health system for all Queenslanders¹
- ▶ Enable better integrated, patient-centred care aimed at improving people's experiences and health outcomes and supporting equitable access to care²

To do this, we will focus on:

- Community**
Providing place-based solutions to keeping people, and their healthcare in their local community where appropriate - with a focus on priority populations.
- Outcomes**
Striving for good health and wellbeing of all Queenslanders - with a focus on improving care integration and system navigation, health literacy, the social determinants of health, and information sharing.
- Partnerships**
Working together as equals as we plan and build the future of healthcare in Queensland

Our guiding principles

Our actions will be guided by these fundamental principles

Our value proposition

Connecting across the health continuum, driving health equity and person-centred care

Our priority areas

We will focus on the following opportunities for action

- Data and joint planning**
Using and sharing data to drive innovation, better understand consumers' needs, and jointly plan healthcare services based on population health needs and shared outcome-based indicators.
- Strengthening primary and community care**
Keeping Queenslanders closer to home, focusing on prevention and wellbeing, reducing duplication, and tailoring care to individual needs.
- Building a governance framework**
Creating the systems that will keep us accountable and effective, sharing ideas, and building trust.
