

Adding the Paediatric Palliative Care Navigator Band in Interactive View

Quick Reference Guide

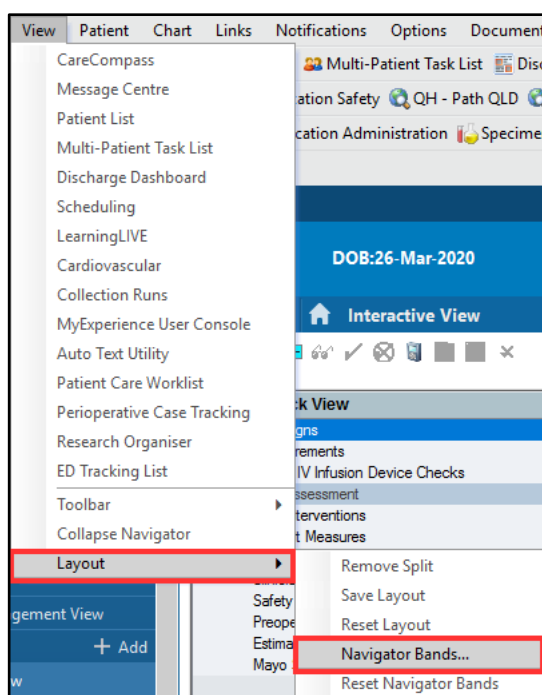

There is a specific **Paediatric Palliative Care Navigator Band** that can be added for paediatric patients with palliative care needs.

To add the **Paediatric Palliative Care Navigator Band**:

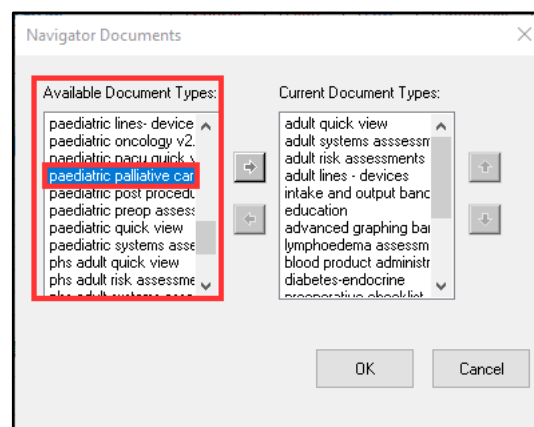

1. Navigate to **Interactive View**.
2. Select **View** from the taskbar.

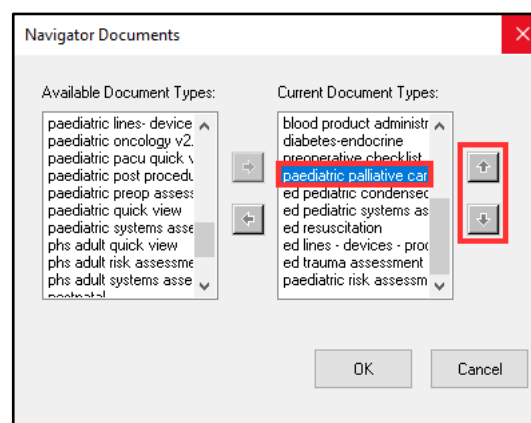

3. Select **Layout**, and then select **Navigator Bands**.

4. **Navigator Documents** fly-out window appears.
5. Locate **Paediatric Palliative Care** navigator band in the **Available Document Types** column.

6. Select the arrow  to move across to **Current Document Types** column.
7. Locate the **Paediatric Palliative Care** navigator band and use the arrows on the right-hand side to move up the list. Moving the navigator band up the list will change the position it will be in when Interactive View is opened.

8. Click **Ok** to finalise.
9. Notification pop-up appears: **Close and reopen the patient's chart to view the changes made in the navigator bands.** Click **Close**.
10. Close the patient's chart and reopen the patient's chart.
11. Navigator to **Interactive View**, the **Paediatric Palliative Care** navigator band will now be visible.
