

Neurology training preference guide

RMO Campaign 2023

The [Australian and New Zealand Association of Neurologists](#) (ANZAN) is responsible for matching trainees to jobs across Australia. ANZAN has significant input into education, specialist training, practice guidelines in partnership with the [Royal Australasian College of Physicians](#) (RACP), whom oversees the training of neurologists.

In Queensland, for an employment contract to be issued by your allocated training facility, applicants **MUST ALSO** submit an application via the [RMO Campaign applicant portal](#).

RMO Application: Step 10 Preferences

At **Step 10: Preferences** of the online RMO application, applicants who are on or have applied to be selected onto the training program **MUST** complete their 1st preference as follows:

The screenshot shows a form with four dropdown menus. The first dropdown, 'What is your first preferred facility? *', has 'College/Pathway/Network (Determined)' selected and is highlighted with a red box. The second dropdown, 'What is your first preferred position? *', has 'Registrar' selected. The third dropdown, 'What is your first preferred Specialty? *', has 'Medicine' selected. The fourth dropdown, 'What is your first preferred Sub-Specialty? *', has 'Neurology (Med)' selected and is also highlighted with a red box.

As up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their preferred positions. You can search for alternative vacancies by using the [Position search tool](#) on the RMO website.

For further information on the individual facilities including contact details, please refer the [Participating hospital contacts and facility profiles](#) page on the RMO Campaign website.
