

National Immunisation Program

2024 Influenza Advice (eligibility and vaccines)

It is a mandatory requirement to report all influenza vaccines administered to the Australian Immunisation Register

6 months to less than 5 years

Vaxigrip Tetra[®] OR Fluarix Tetra[®]

- **ALL** children aged 6 months < 5 years
- Give 2 doses 4 weeks apart for children aged < 9 years if receiving influenza vaccine for the first time.

5 to 64 years

Vaxigrip Tetra[®] OR Fluarix Tetra[®] OR Flucelvax Quad[®]

- **ALL** Aboriginal and Torres Strait Islander people aged 5 < 65 years
- **ALL** individuals with medical conditions associated with an increased risk of influenza disease complications 5 < 65 years
- **ALL** pregnant women at any stage of pregnancy

Give 2 doses 4 weeks apart for children aged < 9 years if receiving influenza vaccine for the first time.

65 years and over

Fluad[®] Quad

- **ALL** adults aged 65 years and over

DO NOT USE THIS VACCINE FOR ANY OTHER AGE GROUP

Please check you have the correct influenza vaccine before administration. Refer to the [Australian Immunisation Handbook](#) and the [Australian Technical Advisory Group](#) on Immunisation clinical advice for further information on influenza vaccines and eligibility.

2024 Free Flu Vaccination Program

All Queensland residents aged 6 months and over can access the influenza vaccine for free in 2024. More details on this program can be found on the [2024 Free Flu Vaccination Program](#) website.

For NIP influenza vaccine eligible people, vaccination service providers should continue to administer the NIP vaccines received directly from QHIP.

For people not eligible for influenza vaccine under the NIP, vaccination service providers should continue to administer influenza vaccine from their privately purchased stock.
