

Keep Emergency for emergencies.

Emergency Departments are here for one thing only – medical emergencies. Anything else just takes away from more serious patient needs.

If you're not sure, call 13 HEALTH (13 43 25 84) and a qualified registered nurse will help to direct you to the right care, whether it's a GP, pharmacy or Emergency.

**Call 13 HEALTH for the cost of a local call 24/7
and help us keep Emergency for emergencies.**
