

Queensland Perinatal Data Collection – COVID-19 coding for Medical Conditions and Neonatal Morbidity – July 2022 (v1.0)

COVID-19 Coding requirements from July 2022 (ICD-10-AM 12th edition)

With the need to specifically track the morbidities and associated outcomes related to COVID-19 in mothers and babies, the below ICD-10-AM 12th edition codes are required to be incorporated into all maternity and perinatal data systems to capture and report data to the QPDC in routine monthly extracts.

Medical Conditions

Subheading	Description	Code	Valid from
COVID-19 laboratory confirmed (e.g. PCR) SYMPTOMATIC (report both)			
	Viral disease in pregnancy	O985	01/07/2022
	COVID-19 laboratory confirmed SYMPTOMATIC	U0712	01/07/2022
COVID-19 laboratory confirmed (e.g. PCR) ASYMPTOMATIC (report both)			
	Viral disease in pregnancy	O985	01/07/2022
	COVID-19 laboratory confirmed ASYMPTOMATIC	U0711	01/07/2022
COVID-19 virus not identified (e.g. RAT) (report both)			
	Viral disease in pregnancy	O985	01/07/2022
	COVID-19 virus not identified	U072	01/07/2022
COVID-19 suspected but ruled out			
	Observation for other suspected COVID-19 but ruled out	Z0381	01/07/2022

Neonatal Morbidities

Subheading	Description	Code	Valid from
COVID-19			
	COVID-19 laboratory confirmed (e.g. PCR), SYMPTOMATIC	U0711	01/07/2022
	COVID-19 laboratory confirmed (e.g. PCR), ASYMPTOMATIC	U0712	01/07/2022
	COVID-19 virus not identified (e.g. RAT)	U072	01/07/2022
	Observation for suspected COVID-19, ruled out	Z0381	01/07/2022
