

# Oral and Maxillofacial Surgery training preference guide

## RMO Campaign 2023

Oral Maxillofacial Surgery (OMS) is a challenging specialty that combines dental, medical and surgical knowledge and skills, and requires extensive study in a rigorous training program. Selection onto the OMS Training Program must be made directly to [The Royal Australasian College of Dental Surgeons](#) (RACDS).

In Queensland, for an employment contract to be issued by your allocated training facility, applicants **MUST ALSO** submit an application via the [RMO Campaign portal](#). For further information on the individual facilities including contact details, please refer the [Participating hospital contacts and profiles](#) page on the RMO Campaign website.

## RMO application: Step 10 Preferences

If you are on or have applied to RACFS, at **Step 10: Preferences** of the online RMO application, you **MUST** complete your preference by selecting the following:

What is your first preferred facility? \*

College/Pathway/Network (Determined) ▼

What is your first preferred position? \*

Registrar ▼

What is your first preferred Specialty? \*

Surgery ▼

What is your first preferred Sub-Specialty? \*

Oral and Maxillofacial ▼

As up to 5 preferences may be recorded as part of the application, it is recommended that applicants utilise a lower preference to indicate which positions they may be interested in if they are not selected to their preferred position. You can search for alternative vacancies by using the [Position search tool](#) on the RMO website.
