The Darling Downs and West Moreton PHN have entered into a collaborative partnership with the Darling Downs Hospital and Health Service to deliver Darling Downs HealthPathways.

The Darling Downs HealthPathways (DDHP) is working with Streamliners to establish a web-based information portal supporting primary care clinicians to plan patient care through our primary, community and secondary health care systems with localised referral pathways for the Darling Downs region.

HealthPathways is designed to be used at the point of care, primarily for General Practitioners but are also available to Hospital Specialists, Nurses, Allied Health and other Health Professionals within our region.

## HEALTH PATHWAYS PROJECT PARTICIPATION OPPORTUNITIES

### EXPRESSIONS OF INTEREST

- **GP CLINICAL PROJECT LEAD** (0.2 FTE) is responsible for clinical governance of the HealthPathways project and for promoting it to clinicians as a tool to support integrated care for patients across local, secondary and acute care. Position current until 30 June 2018 with possibility of extension.
- **GP CLINICAL EDITORS** (casual positions) are experienced, practicing GPs who will assist in localising and developing specific health pathways aligned with areas of expertise/interest. They will use HealthPathways in their practice, understand the type and brevity of information needed, and engage with specialists/subject matter experts during the health pathway development.

Training will be provided for GP Clinical Project Lead and Clinical Editors on **28<sup>th</sup> & 29<sup>th</sup> November 2017**.
