Badger Constructions (Qld) Pty Ltd win Caloundra Health Service redevelopment bid

Badge Constructions (Qld) Pty Ltd will undertake redevelopment works at the Caloundra Health Service (CHS).

Sunshine Coast Hospital and Health Service (SCHHS) Acting Chief Executive Scott Lisle said the planned redevelopment would result in a facility which was capable of supporting the services remaining at, or relocating to, CHS.

“The role of the CHS has changed since the opening of the Sunshine Coast University Hospital (SCUH) in March 2017; however it continues to play a critical role in the provision of health services across our region,” Mr Lisle said.

“Those services include a minor injury and illness clinic, expanded palliative care and ophthalmology services, a diabetes service as well as a range of outpatient and community services.

“The redevelopment will ensure Caloundra Health Service continues to meet local health service needs well in to the future.”

Badge Constructions (Qld) Pty Ltd is widely recognised as leaders in the construction industry and more specifically the delivery of both private and public hospital and health facilities in Australia. Examples of their work include the Sunshine Coast Private Hospital Buderim; St Vincent’s Private Hospital, Brisbane; QEII Jubilee Hospital, Coopers Plains; and the Mental Health Unit at Caboolture Hospital. They also undertook redevelopment works at Caloundra Health Service in 2009.

The redevelopment of the CHS will be completed in four stages ensuring minimal disruption to the delivery of health care services at Caloundra.

Construction will commence in late November 2017 and is expected to be completed by November 2018.
