Eating Disorders Training Day

Presented by experienced clinicians and lived-experience speakers

Join us for an interactive, evidence-based training designed to enhance your knowledge and confidence in caring for people affected by eating disorders.

What you'll learn:

- ✓ Mentalising the consumer through the lived experience lens
- ✓ Overview of common eating disorders (DSM-5-TR)
- ✓ Medical & psychological risk considerations
- ✓ Applying inpatient management guidelines
- ✓ Strategies to engage consumers and build motivation for change
- ✓ How to access QuEDS and other resources

Who should attend?

Nurses, allied health professionals and medical officers - regardless of workplace setting. Suitable for all experience levels.
