

# RTI 5110 – List of Pharmacies

## Contextual Information

Queensland Health (the Department) does not approve or license pharmacies.

The list provided is of all pharmacies that are defined under the *Pharmacy Business Ownership Act 2001* (the PBO Act). These are commonly known as ‘community’ pharmacies. The department does not capture records for pharmacies that fall outside the purview of the PBO Act (this includes a pharmacy operated by the State at a public sector hospital, or another pharmacy business that only provides services to patients at the hospital).

The addresses included on this extract are the most recent ‘notified’ addresses for these pharmacies, as pharmacies are not ‘registered’ in Qld.

## Data Source

The attached information has been extracted from the Queensland Monitoring of Drugs of Dependence System (MODDS) database based on records collected under provision of the PBO Act.

The data was extracted on 29 April 2019 and is subject to change.

## Multiple row explanation

A pharmacy business may have more than one business owner.

Each row is a relationship between the pharmacy and an owner. This means that the number of rows associated with a pharmacy is equal to the number of owners that currently own the pharmacy.

The names of owners have been redacted as the department has not obtained the consent of the owner to release their personal information.

This extract is not historical and represents the ownership as at the extract date and time.
