

Kingaroy Hospital Redevelopment

Newsletter no: 4

From a large open market tender process, seven potential construction companies were short-listed with Broad Construction Services chosen as the head contractor to build the new Kingaroy Hospital.

Broad Construction Services have undertaken to offer employment opportunities to local sub-contractors and support local

businesses wherever possible throughout the construction.

Kingaroy community will also benefit from Contractors requiring materials, accommodation, meals, fuel etc.

Health Minister Dr Steven Miles, Darling Downs Hospital & Health Service CEO Dr Peter Gillies and Darling Downs Hospital & Health Board Chairman Mike Horan were on hand to celebrate the first sod turning to celebrate the commencement of the hospital.

Construction is currently on track with completion expected late 2021.

The project web page is up and running. The web page contains history of the hospital, information about the services currently provided, media releases as well as updated information on the new building including a fly through to show the artists impression of the new build. There is also a section where enquiries can be made about the project. The website address is:
