## Emergency Response Packs Checklists

### Green Emergency response pack Bag 1. checklist

As per the **RRESS Guideline - Emergency response pack 4.4.4 (e)** The signature of the person conducting the checking verifies items are present and within expiry dates, locking tags are unbroken, and equipment or consumables are charged, functioning, intact and calibrated to manufacturers specifications

The **Emergency procedural kits** contain vital equipment required for resuscitation. Some or all can be stored or taken in an emergency response vehicle when responding to an acute incident beyond the doors of the level 1 or 2 facility

All RRESS guidelines are available from: <https://www.health.qld.gov.au/orrh/clinical-manuals/emergency-standardisation-guidelines>
