SCHHS celebrates achievements and more than 8700 years of service

Certificates recognising a collective length of service of more than 8700 years, excellence awards, and the announcement of the winner of a prestigious memorial medal will be one of the highlights of the year for staff at Sunshine Coast Hospital and Health Service.

The 2016 recipient of the Dr H H (Barny) Moy Memorial Medal will be announced at a special awards ceremony at Nambour General Hospital on Thursday, 24 November 2016.

Sunshine Coast Hospital and Health Service Chief Executive Kevin Hegarty said the award, dedicated to the memory of Dr Moy, was the highest recognition a member of the Sunshine Coast Hospital and Health Service could achieve.

Dr Moy, a consultant urologist at Nambour General Hospital from 1989 to 1992, had a strong commitment to and association with the hospital. In his memory his family established a bequest to enable the Dr H H (Barny) Moy Medal to be awarded annually to a member of staff, nominated by their peers.

“The exceptional qualities that Dr Moy embodied – respect, trust, dedication, professionalism, commitment, skill and compassion – are once again evident in the nominations for this year’s Dr H H (Barny) Moy Memorial Medal,” Mr Hegarty said.

A number of Excellence Awards will also be presented to either individual staff members or teams, and almost 800 SCHHS employees who have achieved milestones of service ranging from five years through to 45 years will receive recognition for the important and valued role they have played in the provision of health care to the community.

“The awards are in recognition of staff considered to have made an exceptional contribution to the health service over the past 12 months. This includes doctors, nurses, allied health, administration, operational, technical and trade staff,” Mr Hegarty said.

“The Dr H H (Barny) Moy Memorial Medal, the Excellence and Recognition Awards and the Length of Service Awards provide an opportunity for us to acknowledge and celebrate the exceptional work our staff do each and every day during the course of their normal duties,” he said.

A complete list of the winners will be provided following the ceremony.
