

Transplantation and Anatomy Act 1979
Transplantation and Anatomy Regulation 2017

Application for authorisation to establish a school of anatomy under section 37 of the *Transplantation and Anatomy Act 1979*

UNIVERSITY or FACILITY DETAILS

NAME OF UNIVERSITY		
Registered business name (University/ facility)		
Australian Business Number (ABN)		
School (or equivalent) name		
Location (Street address)		
Real property description (RPD)		
Lot Number	Plan	Parish
Postal address		
Contact person		
Telephone		
Email		

Please note that each School of Anatomy retains responsibility for obtaining its own legal advice with respect to the relevant legislation (including but not limited to workplace health and safety, buildings, the Transplantation and Anatomy Act 1979 and the Transplantation and Anatomy Regulation 2017 and its application (Disclaimer)

PERSON IN CHARGE OF the SCHOOL- the CUSTODIAN

The custodian is the 'person in charge of a school of anatomy' responsible for the management and operations of the facility for which this application relates.

Name	
Position	
Qualifications	
Telephone	Email
Request an authority under section 37 of the <i>Transplantation and Anatomy Act 1979</i> (Queensland) to establish a school of anatomy where the study and practice of anatomy may be carried on in connection with a university or school of medicine in a place considered fit by the authoriser. <input type="checkbox"/> Yes <input type="checkbox"/> No	

TYPE OF SCHOOL OF ANATOMY

Indicate below the proposed type(s) of school of anatomy to which this application relates.	YES	NO	COMMENTS
Is this School of Anatomy an accepting school ? <i>Meaning a school of anatomy that:</i> (a) accepts the body under an authority; and (b) has not borrowed the body from a lending school.			
Is this School of Anatomy a lending school ? <i>Meaning:</i> (a) an accepting school for the body; or (b) an interstate lending school for the body or a part of the body.			
Is this School of Anatomy a borrowing school ? <i>Meaning a school of anatomy that borrows the body or part from:</i> (a) the accepting school for the body for a purpose for which retention of the body is authorised; or (b) an interstate lending school for the body or the part of the body.			

PROPOSED ANATOMICAL ACTIVITIES

How are bodies and body parts to be used in this school of anatomy? <i>Tick all that apply</i>	YES	NO	COMMENTS
(a) Anatomical examination			
(b) Study of the anatomy of the human body			
(c) Teaching of the anatomy of the human body			
(d) Training courses (e.g. surgical techniques)			
(e) Other: <i>Please specify</i>			

PLEASE PROVIDE RESPONSES TO THE FOLLOW AND ATTACH SUPPORTING DOCUMENTATION

Where indicated, documentation can be provided in lieu of comments

Appendix 1: Links to the relevant Australian Standards (page 15)

Appendix 2: Referenced documents (page 16)

Appendix 2a: Explanatory Notes (page 17)

Appendix 3: *Best Practice Guideline for schools of anatomy in the disposal of human remains (Queensland Health 2018)*

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
A. GOVERNANCE ARRANGEMENTS and OPERATIONAL POLICIES					
<i>Note: This may include a discussion with the Head of School and/ or Custodian who is responsible for overseeing the functions of the School</i>					
INDUCTION, COMPLAINTS MANAGEMENT, FORMAL BORROWING AND LENDING ARRANGEMENTS					
1.1	Outline the proposed policies/procedures that address:				Documentation is attached <input type="checkbox"/>
	a) an induction process that includes: <ul style="list-style-type: none"> documentation for staff and students that is readily accessible (available on-line or in hard copy) a guided face-to-face process for staff and students new to the SoA laboratory, outlining the ethical code of conduct (or equivalent), Workplace Health and Safety (WH&S) requirements and security arrangements. a record of those who have completed the induction. 				
	b) the physical environment being set up and managed in such a way that all anatomical				

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	examinations will be undertaken in a quiet, orderly and decent manner [s36 (2) T&A Act]				
	c) a complaints management process in relation to the SoA, with mechanisms to record those complaints and outcomes (e.g. a complaints log).				
1.2	a) Outline the proposed policy/ procedures that addresses formal borrowing and lending arrangements , both with intrastate and interstate SoAs, covering: <ul style="list-style-type: none"> • transportation requirements • body identity and donor consent requirements, and • mechanisms to ensure the chain of custody of bodies/ body parts. 				Documentation is attached <input type="checkbox"/>
	b) If yes, is this policy regularly reviewed?				
1.3	Are the above policies endorsed by an authorised delegate within the university?				<i>If yes, please specify name/position</i>
1.4	If an accepting school , does the SOA charge an amount that covers only the reasonable costs incurred to loan the body or body parts to another SoA? (s42B T&A Act) <i>Such costs include those to receive, embalm, store, maintain or dispose of a body or body part.</i>				
1.5	If an accepting school , are all records making reference to deceased and living persons and their personal information managed appropriately, with personal information only disclosed in accordance with the <i>Information Privacy Act 2009</i> ?				
B. ETHICAL FRAMEWORK					
2.1	Will an ethics committee oversee all aspects relating to human tissue , including: <p>a) an ethical code of conduct or equivalent for staff and students which:</p> <ul style="list-style-type: none"> • emphasises the altruistic and generous nature of the donation of bodies for teaching and research purposes • emphasises that the bodies of deceased persons are at all times to be handled with respect and prohibits the improper and disrespectful use of bodies and body parts • prohibits the use of donated bodies/body parts for entertainment, profit, and 				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	<p>personal purposes and being the subject of unauthorised photography, electronic imaging and use on social media (including banning mobile phones or any other recording devices from the laboratory)</p> <ul style="list-style-type: none"> refers to disciplinary procedures if there is a breach in ethical or orderly conduct. <p>b) consent procedures (see Item 13)</p> <p>c) practices relating to the acceptance and movement of bodies/body parts to and from the school of anatomy</p> <p>d) all uses of bodies and tissues, including teaching and training for students, doctors and other professionals (whether they are from the school of anatomy or elsewhere)</p> <p>e) the disposal of human tissue /remains (see section H)</p>				
2.2	<p><i>Note: In relation to the following, these are not requirements but in keeping with the National Statement on Ethical Conduct in Human Research (2007).</i></p> <p>a) Is the proposed human tissue ethics committee approved by the National Health and Medical Research Council (NHMRC)?</p> <p>b) If not, does the ethics committee have at least one third of its members external to the university?</p> <p>c) Does the ethics committee have expertise in the legislation and ethics applying to donated bodies at schools of anatomy or mechanisms to access this expertise to guide its overseeing role?</p>				
<p>C. GENERAL FACILITIES Refer to: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction AS/NZS 2243:3: 2010 Australian and New Zealand: Safety in laboratories (Section 5.3)</p>					
<p>a) CONSTRUCTION and MAINTENANCE OF FACILITY</p>					
3.1	<p>Does the university comply with the appropriate building code and standards, addressing at a minimum:</p> <ul style="list-style-type: none"> walls, floors, ceilings, lighting, ventilation, cold rooms, hand washing facilities, tables, alarms, insulation, storage, emergency back-up, air extraction, purge systems. <p><i>See Appendix 1 for links to relevant Australian Standards</i></p>				
3.2	<p>Please provide a signed report that attests that the construction and maintenance of the SoA facility is fit for purpose.</p>				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
b) WASTE DISPOSAL (NOT HUMAN TISSUE)					
<i>Consider: Clinical and Related Waste Guideline, Department of Environment and Heritage Protection (2015) and Waste Reduction and Recycling Regulation (2011)</i>					
4.1	Do the proposed clinical waste disposal procedures and facilities comply with the requirements of the relevant environmental legislation? Note: 'The Best Practice Guideline for schools of anatomy in the disposal of human remains' (Appendix 3) indicates that 'residual human waste', as defined in that document, may be disposed of in accordance with the requirements for the disposal of untreated clinical waste.				
c) WORKPLACE HEALTH AND SAFETY (WH&S) –ANATOMY ROOMS					
<i>Consider: AS/NZS 4146:2000 Australian and New Zealand Standard: Laundry Practice</i>					
5.1	Outline the proposed Workplace Health and Safety policies/procedures for the activities being undertaken at the SOA, which cover at a minimum: <ul style="list-style-type: none"> • appropriate attire and Personal Protective Equipment (PPE) being available (e.g. gowns, gloves, masks, glasses) • appropriate laundering • access to emergency showers and eyewash stations • wet /slip hazards • fire awareness • first aid training • chemical safety • evacuation procedures. 				Documentation is attached <input type="checkbox"/>
d) INFECTION PREVENTION AND CONTROL (IPC)					
<i>Consider: NHMRC Australian Guidelines for the Prevention and Control of Infection in Healthcare. Commonwealth of Australia (2010)</i>					
6.1	For accepting and borrowing schools, what are the proposed IPC procedures/guidelines for this SOA, addressing at a minimum: <ul style="list-style-type: none"> • appropriate screening of bodies • appropriate IPC measures for differing specimens (fresh vs embalmed) • how students and staff are instructed about these IPC procedures/guidelines • whether IPC guidelines are readily accessible to students and staff. 				Documentation is attached <input type="checkbox"/>
e) MANAGEMENT OF CHEMICALS					
<i>Consider: Safe Work Australia: Workplace Exposure Standards for Airborne Contaminants (2013)</i>					
7.1	Outline the proposed policy/procedures regarding the appropriate storage of chemicals?				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
7.2	Please provide details of policies/procedures relating to: <ul style="list-style-type: none"> appropriate mechanical ventilation systems being in place and personal exposure air monitoring is being conducted to evaluate the continued efficiency of chemical ventilation systems. 				Documentation is attached <input type="checkbox"/>
7.3	Have any permits/licences been issued for any restricted chemicals?				If yes, please specify
f) SECURITY					
8.1	Outline the proposed security policy/procedures that address, at a minimum: <ul style="list-style-type: none"> a process for detecting, managing and documenting authorised access only to the SoA who has responsibility for ensuring that all people entering the facility are authorised access being granted only to bona fide /authorised personnel out-of-hours entry to the facility the facility being locked when unattended visitors being supervised at all times random audits being conducted of student identification any consequences for student transgressions. 				
8.2	Will all bodies and body parts securely stored when not in use?				
8.3	Does the physical arrangements/design of laboratories, dissecting rooms, storage rooms and museums ensure that access to these facilities is private and restricted?				
8.4	If students are accessing in-house educational teaching aids (e.g. videos, tutorials with photos), what security measures are in place to mitigate any risks of this material being incorrectly used or disseminated?	Specify			
D. ADMISSION/RECEIVING of BODIES/ BODY PARTS					
a) CHECKING THE SUITABILITY OF A BODY/BODY PART FOR ACCEPTANCE					
9.1	For accepting schools, outline the proposed policy/procedure for assessing whether a body or body part is suitable for acceptance to the SoA, which includes the following criteria: <ul style="list-style-type: none"> infection screening 				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	<ul style="list-style-type: none"> checking the scope of consent (e.g. use, retention period) (see 13.1) if radiation is a risk (e.g. radioactive beads in patients with prostate cancer) presence of implanted defibrillators (risk of electrical shock) versus pacemakers (little or no risk) presence of disease (e.g. organs extensively involved in widespread cancer deposits) 				
9.2	What infection screening will be done (e.g. HIV, Hepatitis B, and TB)?	Please specify			
9.3	Will any other issues considered in assessing the suitability of bodies or body parts?				If yes, please specify
b) ADMISSION ARRANGEMENT FOR ACCEPTING BODIES					
10.1	Are vehicle reception areas screened from public view?				
10.2	Are reception areas and all facilities where bodies and body parts are handled and used, screened from public view?				
REGISTRATION PROCEDURES					
11.1	<p>If an accepting school, outline the proposed policy/procedure for accepting a human body, including the recording of the following particulars on a register?</p> <p>Minimum requirements of register [s8(2)(a-p) T&A Reg]:</p> <ul style="list-style-type: none"> a) Name, age, sex and last address of person b) Day and place of death of person c) Day and time body was received at the accepting school d) Name of person from whom the body was received e) Name of individual who delivered the body to the accepting school for the person mentioned in paragraph (d) f) Type of authority for the donation of the body g) Name of person who obtained authorising documents for the body h) Name of person at the accepting school who received the body i) The school's unique identification of the body, including, for example, a number or code j) If the body is authorised to be retained for a certain period-the period 				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	k) If the person has given written instructions about the disposal of the person's body -a summary of the instructions l) Day and time the body was removed from the accepting school for disposal m) Name of the person at the accepting school who allowed the removal of the body for disposal n) Name of the person who removed the body for disposal o) Name of the individual who removed the body for the person mentioned in paragraph (n) p) Day, place and method of disposal of the body and q) If the accepting school lends the body to a borrowing school, the register must also include the particulars (see 11.2)				
11.2	If an accepting school , outline the proposed policy/procedure for lending a body to a borrowing school, including the recording of the following particulars on a register? Minimum requirements of register [s8(3)(a-h) T&A Reg]: a) Name of the borrowing school b) Day and time the body was removed from the accepting school for the loan c) Name of person from the accepting school who allowed the removal of the body d) Day and time body was received by the borrowing school e) Name of person from the borrowing school who received the body f) Day and time the body was returned to the accepting school g) Name of person from the borrowing school who allowed the return of the body to the accepting school h) Name of person from the accepting school who received the body.				Documentation is attached <input type="checkbox"/>
11.3	Outline the proposed policy/ procedure for borrowing a human body, including the recording of the following particulars on a register: Minimum requirements of register [s9(1)(a-h) T&A Reg]: a) Name of the lending school for the body b) The lending school's unique identification for the body c) Name of person from the lending school who allowed the removal of the body d) Name of the person from the borrowing school who received the body e) Day and time the body was received by borrowing school f) Day and time the body was returned to lending school g) Name of person from borrowing school who allowed the return of the body to the				Documentation is attached <input type="checkbox"/>

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	lending school h) Name of person from lending school who received the body.				
c) LABELLING					
12.1	Is there a system for the permanent unique non-identifying labelling of bodies, body parts and specimens?				Documentation is attached <input type="checkbox"/>
12.2	Outline the proposed system/s for the tracking of all bodies, body parts and specimens within a register?				
E. CONSENT - USE					
13.1	Will all anatomical examinations be conducted with the written authority and consent of the deceased, or if the deceased did not consent during their lifetime, the written consent of a senior available next of kin [s31 (a) (b) (i) (ii) (c) T&A Act]?				
13.2	Will the SOA be able to demonstrate that all bodies/ body parts are used for the authorised retention period, including permanent retention?				
13.3	Will the SOA be able to demonstrate that the wishes of the deceased or next of kin relating to the disposal of bodies and/or human tissue are followed, where reasonably practicable?				
13.4	Does the SoA have a system for readily identifying the retention period and types of use for bodies or body parts as per consent?				If yes, please specify
F. PLASTINATED SPECIMENS					
14.1	Will there be plastinated human tissue specimens in the anatomy collection? If yes:				
	• Are they being manufactured in-house?				
	• Were they plastinated elsewhere?				If yes, please specify where:

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
14.2	Will there be a register of plastinated specimens at this SoA? If yes: <ul style="list-style-type: none"> How will plastinated specimens, for which death certificates are available, be differentiated from those obtained for which death certificates are not available? 				If yes, please specify
14.3	Will all plastinated specimens clearly and permanently labelled e.g. with a barcode, microchip or other?				
14.4	If the SoA has purchased plastinated specimens or intends to purchase plastinated specimens, does it have a Ministerial permit for this purchase of human tissue? (s40 T&A Act) <i>Information about applying for a permit can be obtained by emailing blood@health.qld.gov.au</i>				
G. TRANSFER OF BODIES AND BODY PARTS BETWEEN ACCEPTING, LENDING AND BORROWING SCHOOLS					
a) PROCEDURES					
15.1	Will the SOA be able to demonstrate that when a body or body part is transferred from one institution to another, it is not contrary to the authority given by the deceased or next of kin? (consider Item 1.2)				
15.2	Will the SOA be able to demonstrate that when bodies or body parts are transferred, the minimum details required by the Regulation are entered onto a register (consider Item 11.1-11.3) [ss 8 & 9 T&A Reg]?				
15.3	Will the SOA be able to demonstrate that bodies/body parts in the SoA's possession are only transferred to another SoA or equivalent?				
b) TRANSPORTATION					
16.1	Will there be documented policy/procedures in place for the transportation of bodies and body parts to/from the SoA?				
16.2	Will all bodies/body parts for transport be fully labelled, including a description and identifier that can be linked to the lending SoA?				

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
16.3	Will the SOA be able to demonstrate that the chain of custody of all bodies/body parts being transported is preserved and documented?				
H. DISPOSAL of HUMAN TISSUE / HUMAN REMAINS <i>Consider: 'Best Practice Guideline for schools of anatomy in the disposal of human remains' (Appendix 3)</i>					
17.1	If an accepting school , does the school ensure that the disposal of a body complies with statutory requirements, including: <ul style="list-style-type: none"> • Disposal of the body as soon as possible after any <i>authorised retention period</i>, including making arrangements for the cremation or burial of the body [s6(1) & s6(2) T&A Reg] • Otherwise, disposal of the body as soon as possible after the body has been used for <i>the purpose</i> for which it was retained, including making arrangements for cremation or burial of the body [s6(1)(b) T&A Reg] • Disposal of the body according to deceased person's written instructions to the extent that it is reasonably practicable [s6 (4) T&A Reg] • A register is kept of details of arrangements for and disposal of the body [s8 (2)(l-p) T&A Reg]? 				
17.2	If an accepting school : <ul style="list-style-type: none"> • Are there documented policies and procedures about disposal practices, consistent with the <i>T & A Act</i>, T & A Reg and other relevant legislation, which are subject to regular compliance monitoring and review? (s6.2 Guideline) • Do all persons involved in activities regarding disposal receive training and supervision about complying with relevant policies and procedures? (s6.2 Guideline) • Does the Donor Consent Form cover all matters in s6.5 of the Guideline and request the nomination of a next of kin or other contact? • Upon the death of a potential donor, is contact made with the next of kin about matters in s6.6 of the Guideline, and are next of kin wishes followed, including those relating to s6.17 of the Guideline? • Are body parts disposed of separately from a body only where there is a compelling reason, as per s6.11 and s6.12 of the Guideline? • If parts of the body are cremated separately from a body, are there documented 				

ITEM No.	ASSESSMENT CRITERIA	YES	NO	N/A	COMMENTS
	policies and procedures as per s6.16 of the Guideline?				
I. HUMAN TISSUE OF UNCERTAIN ORIGIN					
18.1	Will there be a process for human tissue of unknown origin (including bone) to be identified as such?				
	What are the proposed policy/ procedures for accepting and rejecting human tissue of uncertain origin? <i>Consider reportable death requirements under the Coroners Act 2003.</i>				
18.2	Will there be a process to ensure that human tissue of unknown origin is not mixed or confused with specimens of known origin?				

ENDORSEMENT OF THE APPLICANT-<i>The proposed Custodian</i> The custodian is the 'person in charge of a school of anatomy' responsible for the management and operations of the facility for which this application relates. This section is to be completed by the Custodian's employer	
The applicant <i>(applicant's name)</i>	
is employed by <i>(employer's name)</i>	
I support this application.

APPENDIX 1: LINKS TO AUSTRALIAN STANDARDS

<p>General facilities-construction of facility <i>See also requirements for PC2 laboratories Section 5.3 AS/NZS 2243: 3: 2010 Australian and New Zealand: Safety in laboratories</i></p>	
Walls- suitably constructed and in good repair	Section 2: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Floors- suitably constructed and in good repair	
Ceilings- suitably constructed and in good repair	
Lighting- suitable, appropriate and functional for each task	Section 4: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Ventilation- suitable, appropriate and functional for each task	Section 5: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Cool rooms are appropriately constructed and maintained to provide suitable and adequate storage and to facilitate cleaning	Sections 3.6 and 3.7 Requirements for the Facilities and Operation of Mortuaries (Third Edition 2013) National Pathology and Accreditation Advisory Council
Appropriate hand-washing facilities are available (wash hand basin, hot and cold water, on –hand operated taps, soap and disposable paper towel or air dryer)	Section 6: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Tables, fittings and fixtures in good repair	Section 2: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Adequate sinks with hot and cold water for cleaning equipment	Section 6: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
Enhanced thermal insulation for the avoidance of condensation. For smaller labs, may use fume hoods and formaldehyde pipes if adequate to reduce condensation and mould.	
Storage facilities fitted with alarms –activated when the temperature exceeds a predetermined level. If no alarms, must have an appropriate procedure to identify issues and alert staff.	Sections 3.6 and 3.7: Requirements for the Facilities and Operation of Mortuaries (Third Edition 2013)
Cold room is fitted with temperature gauge with temperature monitored. Many not be required for smaller labs with no fresh/frozen bodies and therefore no cold room	National Pathology and Accreditation Advisory Council
Automatic emergency back-up system for the power supply for refrigeration and high priority equipment for larger accepting schools with	

fresh/frozen bodies rather than embalmed or plastinated.	
Enhanced vapour seal via air lock doors, sealed light fittings, plasterboard ceilings etc. If smaller lab, adequate fittings to ensure that any odours are sealed with the lab and don't seep into neighbouring teaching spaces e.g. fume hood with formaldehyde filter	<ul style="list-style-type: none"> • Section 5: AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction • Safe Work Australia: Workplace Exposure Standards for Airborne Contaminants (2013)
Low level air extraction to ensure chemical levels (e.g. formaldehyde) and noxious odours remain within acceptable workplace health and safety level. May include a fume hood for smaller labs.	
Purge system within cold room to prevent chemical exposure-for larger accepting schools	

APPENDIX 2: DOCUMENTS REFERENCED

- AS/NZS 2982:2010 Australian and New Zealand Standard: Laboratory design and construction
- AS/NZS 2243:3:2010 Australian and New Zealand Standard: Safety in laboratories (Section 5.3)
- National Statement on Ethical Conduct in Human Research 2007 (Updated 2015). The National Health and Research Council, The Australian Research Council and the Australian Vice-Chancellor's Committee. Commonwealth of Australia, Canberra
- Requirements for the Facilities and Operation of Mortuaries (Third Edition 2013) National Pathology and Accreditation Advisory Council
- Clinical and Related Waste Guideline: Department of Environment and Heritage Protection (2015)
- Safe Work Australia: Workplace Exposure Standards for Airborne Contaminants (2013)
- Information Privacy Act (2009)
- Coroners Act (Qld) 2003
- Waste Reduction and Recycling Regulation 2011
- NHMRC Australian Guidelines for the Prevention and Control of Infection in Healthcare. Commonwealth of Australia (2010)
- AS/NZS 4146:2000 Australian and New Zealand Standard: Laundry Practice

APPENDIX 2a: EXPLANATORY NOTES

This information has been prepared to assist you in applying for authorisation to establish a school of anatomy under section 37 of the *Transplantation and Anatomy Act 1979*.

1. Complete this form electronically and answer all questions **in full**.
2. Applications are processed only when all the information requested is provided. You will be notified in writing if the approval is granted.
3. All forms requiring a signature must bear the **original signature in ink**. Queensland Health is not able to accept a photocopy, facsimile (fax) or emailed copy of the completed form. Applications must be forwarded by POST to the address details provided below.

LODGING APPLICATIONS

All applications are to be addressed to:

Medicines Compliance and Human Tissue Unit
Chief Medical Officer and Healthcare Regulation Branch
Queensland Health
PO Box 48
BRISBANE QLD 4001

NOTE: You are required to:

- KEEP A COMPLETED AND SIGNED COPY OF THIS APPLICATION AND OTHER SUBSEQUENT RELATED DOCUMENTATION FOR RECORD AND INSPECTION PURPOSES; AND
- NOTIFY QUEENSLAND HEALTH WHEN THERE ARE ANY CHANGES TO THE SCHOOL'S OPERATIONS
 - Using the Form 2: 'Notification of variation to established school of anatomy details - section 37 of the *Transplantation and Anatomy Act 1979*'.

Any personal information collected by the Medicines Compliance and Human Tissue Unit is handled by Queensland Health in accordance with the *Information Privacy Act 2009*. All personal information will be securely stored and only accessible by appropriately authorised employees within Queensland Health, the Hospital and Health Services and, if required, specialised contracted service providers. De-identified data may be used for external reporting purposes. Personal information will not be disclosed to any other third parties without consent, unless required or authorised by law. For information about how Queensland Health protects personal information, or to learn about your right to access your own personal information, please see our website.

Transplantation and Anatomy Act 1979

- School of anatomy means a school of anatomy established or declared to be established under the authority of section 37.

Transplantation and Anatomy Regulation 2017

- *Body* means the body of a deceased person

Further information may be available from Queensland Health's website at www.health.qld.gov.au/health_professionals/anatomy-schools/default.asp

APPENDIX 3: Best practices for school of anatomy in the disposal of human remains (Department of Health 2018)
