

## Preference guide for new applicants and current network trainees

### New applicants

To be considered for a Basic Paediatric Training Network position, all applicants are advised to select YES to the question 'Are you applying to the Basic Paediatric Training Network?' and complete relevant subsequent questions.

New applicants will be asked to complete the following preferencing steps:

**Step 1:** Indicate your first, second, and third preference for a network rotation:

Please indicate your **first preference** for a network rotation: \*

Please indicate your **second preference** for a network rotation: \*

Please indicate your **third preference** for a network rotation: \*

**Step 2:** Indicate your "Preference for a hospital placement"

Please indicate your **preference for a hospital placement** for 2023: \*

### Step 3: Indicate your “Preference for a metropolitan non-tertiary hospital”

Please indicate your **preference for a metropolitan non-tertiary** hospital: \*

### Step 4: Indicate your “Preference for a regional non-tertiary hospital”

Please indicate your **preference for a regional non-tertiary** hospital: \*

## New applicants and current trainees

If you are a continuing network trainee you will have previously been advised of your hospitals allocation for next year. To allow medical recruiters to identify you as a network trainee please preference as below, you do not need to complete preferences 2-5. New applicants are required to preference as below in Section 10 “RMO preferences” in the RMO application.

Facility: College/Pathway/Network (Determined)

Position: Registrar

Specialty: Paediatrics

Sub-specialty: Basic Paediatric Training

## Non-network positions

In the event that you are unsuccessful in obtaining a network position, you may wish to be considered for a non-network paediatric position. It is recommended that you complete Section 10, RMO **preferences, 2-5** for non-network paediatric positions by nominating a facility and a position, e.g. Registrar, PHO or SHO in paediatrics.
