## Providing a sample at a pathology collection centre (for fastest results)

1. Print the pathology request form or use the form we mailed to you.
2. Take it to any of the following pathology collection centres:
  - [QML Pathology](#)
  - [Sullivan Nicolaides Pathology](#) (SNP)
  - [Mater Pathology](#)
  - [Pathology Queensland](#)
3. Provide a urine sample (do not go to the toilet one hour before this).
  - The pathology centre will give you a small sample jar.
  - Go to the bathroom and collect the first stream of urine in the jar, and the rest into the toilet.
  - Screw the lid back on the jar and give it to the pathology staff.

**1** Print the pathology request form.

**2** Take the pathology request form to your nearest pathology collection centre.

**3** Provide a urine sample.
