

Rheumatic Heart Disease starts with a Strep A infection.

If the infection is not treated right, it can lead to ARF which can cause RHD.

Sore throat?
Itchy skin?
Skin sores?

Time to go to your
health clinic!

You got a skin sore? A cut, a bite, or a scratch?

You don't want germs getting in, especially Strep A, which can lead to a sick heart!

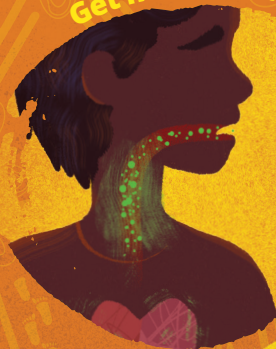

Cover up any skin sores and keep them clean to block those germs. If it gets worse, get along to the clinic and get it sorted.

Cover up cuts & sores

Wash your hands & body

Get medicine to heal sore throats

Got a sore throat? Hurts to swallow?

It might be nothing serious, but it might be Strep A, which can lead to a sick heart.

Go to the health clinic and get it treated right to make your throat healthy again.

Sore throat, itchy skin, skin sores

are all signs that Strep A germs are making trouble. If we stop Strep A from getting into the body, we block RHD.
