General

The Mental Health Act 2016 (the Act) establishes the functions of authorised mental health service (AMHS) administrators, which includes appointing authorised doctors and authorised mental health practitioners (AMHPs). The administrator is required to keep a register of persons holding office as an authorised doctor or AMHP.

Authorised doctors and AMHPs exercise significant powers and functions which impact on the rights of individuals. Accountable appointment processes and the establishment of minimum knowledge and skill requirements for appointment are fundamental to the proper and effective administration of the Act, the protection of individual rights, and patient, carer and wider community confidence in the system of care.

All mental health service clinicians are subject to a range of standards and requirements which govern their clinical practice including, for example, National Practice Standards for the Mental Health Workforce (2013), discipline-specific practice standards, codes of ethics, and registration and credentialing requirements.

In addition, a range of clinical governance arrangements operate at the service level to ensure safe and quality patient care, including clinical accountability and reporting structures, clinical supervision and clinical review processes. The appointment and practice of authorised doctors and AMHPs operate within this context.

Scope

This Policy is mandatory for all Authorised Mental Health Services (AMHSs). An authorised doctor, authorised mental health practitioner, AMHS administrator, or other person performing a function or exercising a power under the Act must comply with this Policy.

Clinicians should work collaboratively with and in partnership with patients to ensure their unique age-related, cultural and spiritual, gender-related, religious and communication needs are recognised, respected and followed to the greatest extent practicable. Clinicians should consider the timely involvement of appropriate local supports and provide treatment and care with a recovery-oriented focus.

This policy must be implemented in a way that is consistent with the objects and principles of the Act.
1 Appointment of authorised doctors

Key Points

An AMHS administrator may, by instrument in writing, appoint a doctor as an authorised doctor.

- A ‘doctor’ is a person registered under the Health Practitioner Regulation National Law to practice as a medical practitioner, other than as a student.

The administrator must be satisfied that the doctor:

- is registered under the Health Practitioner Regulation National Law, and
- has the necessary competencies, as outlined in this Policy, to be an authorised doctor.

An authorised doctor who is a psychiatrist is an authorised psychiatrist. If the AMHS administrator is a psychiatrist, the administrator is an authorised psychiatrist.

- A ‘psychiatrist’ is a person registered under the Health Practitioner Regulation National Law to practice in the medical profession:
  - as a specialist registrant in the specialty of psychiatry or
  - who is able to practice psychiatry as another type of registrant prescribed by regulation.

The required competencies are:

a. substantial clinical expertise in the examination and assessment of persons suspected of having a mental illness and the treatment and care of persons with a diagnosed mental illness, and

b. substantial knowledge of the Act and the Chief Psychiatrist’s Policies as they relate to the functions of an authorised doctor, including in the following areas:

- the objects and principles of the Act, and
- examinations and recommendations for assessment, including the treatment criteria and the less restrictive way of treatment, and assessments and the making of treatment authorities, and
- the treatment and care of persons on treatment authorities, forensic orders and treatment support orders, and
- classified patients, and
- mechanical restraint, seclusion and physical restraint, and
- psychiatrist reports for persons charged with an offence, and
- the rights of patients and support persons, and
- the role of the Mental Health Review Tribunal, and
At a minimum, competencies **must** be demonstrated through satisfactory completion of the Act eLearning modules for authorised doctors. Verification will be by the provision of a Certificate of Completion of the eLearning modules.

### 1.1 Authorised doctor (private)

Authorised doctors who only practice in the private sector, may be appointed as an authorised doctor (private).

This appointment requires the successful completion of the assessment in ten (10) identified eLearning modules (see Attachment 5).

- The limited eLearning module course does not prevent an authorised doctor who only practices in the private sector from completing the full suite of eLearning modules.

It is essential that doctors who are appointed as an authorised doctor (private) only perform functions under the Act for which they are appointed.

### 1.2 Authorised doctor (limited practice)

In some circumstances, public sector doctors may be appointed as authorised doctors for a more limited range of functions. This may apply for the following categories of doctors:

- resident medical officers (junior house officers and senior house officers only), or
- emergency department doctors in services where an authorised doctor may not be readily available, or
- doctors in rural and remote locations.

Where justified by service delivery benefits, such doctors may be appointed as an authorised doctor (limited practice).

This appointment requires the successful completion of assessments in eight (8) identified eLearning modules (see Attachment 5).

- The availability of this limited practice eLearning module course does not prevent a doctor from completing the full suite of eLearning modules.

It is essential that doctors who are appointed as an authorised doctor (limited practice) only perform functions under the Act for which they are appointed.
An administrator may further limit the functions and powers of an authorised doctor (limited practice) when appointing the authorised doctor (see Example Instrument of Appointment - Authorised doctors (Attachment 3)).

For resident medical officers (junior house officers and senior house officers), these arrangements do not affect the supervised practice requirements set by the Medical Board of Australia. Supervision arrangements must be based on levels and conditions of appointment.

2 Appointment of AMHP

Key Points

An AMHS administrator may, by instrument in writing, appoint a health practitioner as an AMHP.

- A ‘health practitioner’ is a person registered under the Health Practitioner Regulation National Law, or another person who provides health services, including, for example, a social worker.

The administrator must be satisfied that the health practitioner has the competencies, as outlined in this policy, necessary to be an AMHP.

The required competencies are:

a. substantial clinical expertise in the examination and assessment of persons suspected of having a mental illness, and knowledge of the treatment and care of persons with a diagnosed mental illness, and

b. substantial knowledge of the Act and the Chief Psychiatrist’s Policies as they relate to the functions of an AMHP, including in the following areas:

- the objects and principles of the Act
- examinations and recommendations for assessment, including the treatment criteria and the less restrictive way of treatment
- classified patients
- mechanical restraint, seclusion and physical restraint
- the rights of patients and support persons, and
- searches and transporting patients.

At a minimum, competencies must be demonstrated through satisfactory completion of the Act eLearning modules for AMHP’s. Verification will be by the provision of a Certificate of Completion of the eLearning modules.
2.1 Limited practice

Where a person does not meet one or more of the competencies in full, a limited or conditional appointment may apply.

- For example, if the health practitioner does not complete the eLearning modules in full, the appointment will be limited to functions of an AMHP relevant to the eLearning modules that have been completed.

3 Conditions on appointment

**Key Points**

In appointing an authorised doctor or AMHP, the administrator may:

- limit the powers that may be exercised by the appointed person, or
- establish conditions under which powers may be exercised by the person.

A condition or limitation may be stated in the person’s instrument of appointment, or by way of signed notice given to the person.

All appointments as an authorised doctor or AMHP must be:

- for a specified term or subject to the person’s ongoing employment in the AMHS at which they are appointed, and
- conditional upon the authorised doctor or AMHP exercising powers in accordance with the AMHS clinical governance and clinical review process (e.g. Assessment and Risk Management Committee).

The person's appointment as an authorised doctor or AMHP is on the condition that the person continues to have the competencies necessary to be an authorised doctor or AMHP.

The powers of an authorised doctor or AMHP are not limited to patients of the AMHS at which they are appointed. An authorised doctor or AMHP may exercise their powers in relation to a patient of any Queensland AMHS.

- In exercising their powers under the Act, authorised doctors and AMHPs must also have regard to employment requirements in other services, including credentialing and scope of clinical practice.
4 Ending an appointment

Key Points

The Act sets out when an authorised doctor or AMHP’s appointment ends including circumstances where:

- the authorised doctor ceases to be a doctor or the AMHP ceases to be a health practitioner of the type that was the basis for the person’s appointment, or
- the appointment is for a stated term and the term ends, or
- the appointment is subject to a condition that is no longer satisfied (e.g. the appointment is conditional on the person being an employee of the AMHS and the employment ceases), or
- the Chief Psychiatrist is satisfied the person is unable to perform the functions of office and gives written notice to the person stating that the person stops holding office from a specified date, or
- the appointed person resigns by written notice given to the administrator of the AMHS who appointed the person.

In addition, the administrator who appointed the person may revoke the instrument of appointment (Section 24AA, Acts Interpretation Act 1954).

5 Process and documentation requirements

AMHS administrators are responsible for ensuring an accountable system for the appointment of authorised doctors and AMHPs.

The AMHS administrator must keep a register of persons holding office as an authorised doctor, AMHP or health practitioner appointed under section 341 to perform certain functions.

- The register of appointments is to be maintained in the Consumer Integrated Mental Health Application (CIMHA).

The administrator must also maintain a system of records relating to appointments, amendments to appointment conditions and terminations of appointment, including copies of written instruments of appointment and any verifying documentation.

The administrator must undertake an annual review of the register of appointments in CIMHA, to ensure the register is up to date.
Key Points

The administrator must have local policies or procedures in place for the appointment of authorised doctors and AMHPs at the AMHS, including:

- the process for appointment, i.e. how an appointment application is initiated (e.g. by way of application by the prospective appointee, on the recommendation of the team leader/clinical director), assessed to ensure competencies are met (e.g. verification by team leader/clinical director), and determined, and
- accountabilities for ongoing oversight of statutory functions exercised by appointees and ensuring competencies continue to be satisfied.

6 Instruments of appointment

The instrument of appointment must:

- state the name of the person appointed,
- the powers of the appointee (i.e. whether the appointment provides for all powers of an authorised doctor or AMHP), and
- any conditions of appointment including the term and/or circumstances under which the appointment ends.

Example instruments of appointment can be found in attachment 3 and 4.

7 Identity cards

AMHS administrators are required to issue an identity card for authorised doctors and AMHPs.

The card must:

- contain a recent photograph of the person, and
- identify the statutory position to which they are appointed, and
- state an expiry date for the card.

The expiry date on the card is intended to ensure recency of the appointee’s photograph. The time frame for the ID cards validity may be aligned with local Hospital and Health Service or private sector facility protocols for identity cards (e.g. 5 years).

An authorised doctor or AMHP must:

- produce or display their identity card when exercising their functions.
- return the card to the administrator within twenty-one (21) days of the office ending.

The administrator should institute local processes to ensure the timely return of identity cards.
The legislative requirements for the issuing of an identity card may be met by identifying the statutory appointment on an existing health service employee identification card or by establishing a distinct card for the statutory appointment.

Issued under section 305 of the Mental Health Act 2016.
