

Right to Information Application (RTI 7673/25)

Scope of application

1. Number of currently employed social workers within Queensland Health, and the associated roles/titles if possible

Date range

Requested: Current Data

Provided: 16 March 2025

Source

Data source: DSS HR Payroll SAP

Response

There are currently 1,244.76 MOHRI Occupied FTE (1,431 MOHRI Occupied Headcount) Social workers employed within Queensland Health

Comments and Caveats

- Data extracted from DSS on 31 March 2025
- Data current as of pay period ending 16 March 2025
- Data Filtered to QHD Jobcode Social Worker (20008548) and Social Worker, MH (20008605)
- MOHRI Occupied FTE relates to an employee's agreed contracted hours of employment who has productively worked or is on extended paid Leave for each Pay Cycle or in the case of Casual staff the actual worked hours, then the result is divided by award standard fortnight hours.
- MOHRI Occupied Headcount can be reported in decimals. This is because a person is counted as one head at the organisational level. When that person works in more than one position, or when their position is costed across multiple business areas, their headcount will be split accordingly to reflect the proportion of time in each position/business area. This allows the total of their headcounts in the organisation to add to 1.
